THURSDAY, NOVEMBER 26, 1840.

Mr. PETER GREEN, a Representative from Clay county, appeared, was qualified, and took his seat.

The Speaker laid before the House the following communication from the Attorney General:

To the Honorable Speaker of the House of Representatives of the General Assembly of the State of Illinois, at their twelfth general session begun and held at the city of Springfield, in the year of our Lord one thousand eight hundred and forty:

The undersigned respectfully represents that by the provisions of an act of the General Assembly of the State of Illinois, approved February 20, 1819, it is made the duty of the Attorney General of the State, (and of other officers therein named) "to make a report of all apparent defects, inconsistencies, omissions, unequal or oppressive laws, which each shall have discovered, to the Speaker of the House of Representatives, at the commencement of each and every session of the General Assembly."

In obedience to the direction of that act, the undersigned has the honor to submit to the General Assembly, through their Speaker, the following brief remarks, which he deems are required of him in his official station. The suggestions herein, are with great diffidence on the part of the undersigned, offered for the consideration of your honorable body, and he

asks that they may be received in a spirit of indulgence and kindness, as he assures you they are frankly and honestly given. The undersigned will confine his remarks in the first place to the criminal code of the State, in which his duties have been most particularly called, during his short service in office.

First. By the 4th and 5th divisions of our criminal code the crimes of treason and murder are punished with death; also, by the 6th and 9th divisions, death, resulting from the crimes of arson and perjury, are punishable with death. It is with great diffidence, indeed, that the undersigned ventures an opinion against the continuance of this ancient and habitual manner of punishment. While life remains the most wicked may repent, the most abandoned may be brought to a sense of moral duty to God and his fellow man; his brutal and malignant passions may be brought under subjection to reason, and his physical powers be made productive of benefit to community by a life of confinement at hard labor. Life being given by God alone, it is believed that it ought not to be taken away by man, unless the safety of society most absolutely demands the sacrifice. While life remains there is yet a hope of reformation, and it is thought that in all cases, the criminal may be so secured by continual confinement in a penitentiary, that society may be protected from his future aggressions—his labor made beneficial to community, and a hope still left that he himself, by a life of penance and repentance of his crimes may yet make a partial atonement to the justice of heaven, and obtain final pardon of him, who hath said "I have no pleasure in the death of him that dieth." The undersigned would therefore respectfully suggest the propriety of so amending those provisions that solitary confinement to hard labor for life, be substituted for the now required punishment of death.

Second. By the provisions of the 29th section, it is declared that the crime of manslaughter shall be punished by confinement in the penitentiary for a term not more than three years, and a fine of not more than one thousand dollars; the time of confinement may be as short as one hour, and the fine as low as one dollar. Manslaughter is so nearly allied to murder that it is frequently difficult to discover the line which separates the degrees of guilt. Is the life of a human being of so little esteem in our community that it should not be protected from a sacrifice to the hasty passions, violent and vindictive feelings, or the wanton sport or carelessness of any one? Can the imagination of any man conceive so low a degree of manslaughter that the perpetrator should not meet a greater punishment than he who steals goods of the value of five dollars, or he who knowingly passes a counterfeit note for a single dollar on an insolvent bank. The propriety of so amending that section as that the offender may be confined in the penitentiary for a term not less than five, nor more than twenty years, is recommended.

Third. The 47th section defines the crime of mayhem, and prescribes its punishment for the most aggravated case of mayhem; the punishment cannot exceed three years confinement in the penitentiary, and may be as short as one. The perpetrator of the crime of mayhem, is always actuated by a malicious and malignant heart, and most assuredly he who shall cut out the tongue, or put out the eyes of another, merits greater punishment than he who shall burn a canoe or pass a counterfeit dollar. The burning a water craft of any description subjects the offender to punishment by ten

years confinement in the penitentiary, and any person who shall knowingly pass a piece of counterfeit coin, which may only be of the value of five cents, is liable to imprisonment and hard labor in the penitentiary for fourteen years. I would recommend the amendment of that section (47) so as to fix the term of punishment for mayhem, by confinement in the penitentiary for any term not less than five, nor more than twenty-five years.

Fourth. The 58th section defines the crime of arson, and the punishment for its commission. This is one of the most dangerous crimes to which a civilized and industrious community is liable. This crime is always committed by an incendiary, and generally at a dark hour of the night, when the victim of his malice is sleeping in apparent security. He who intentionally sets on fire the property of another is actuated by an abandoned and malignant heart, with an intent to commit larceny, murder, or to gratify feelings of revenge.

The difficulty of guarding against such an enemy, the safety and repose of society, the protection of both life and property, most imperiously requires that the reckless, revengeful, and malignant being who shall commit the offence of arson, shall be confined for a length of time sufficient to protect society against his further violence. The propriety of so amending that section, (58) as that the punishment for that offence shall not be less than five years, and may extend to thirty years, is strongly recommended.

Fifth. By the provisions of sections 61, 62, and 65 of the criminal code, it is prescribed that no sentence of confinement for the commission of crimes therein named, shall be for a term less than one, nor more than ten years, and in no case to be imprisoned in the penitentiary, if the property taken shall not be of the value of five dollars. I would suggest the propriety of so amending those sections that the terms of confinement should in no case be less than three, nor more than twenty years, and that the limits to the value of the property taken be repealed. It is believed that no good has, or will result to the public, or individuals, by a few days' confinement in the penitentiary. The term of one year is found by experience to be too short a period to correct the offender or protect the public. The disposition of the criminal's mind, the circumstances under which he committed the offence, and the proper means to prevent a repetition of crimes, all ought to be considered in the infliction of punishment. In the State of Illinois, where all the necessaries of life are so abundant and easily acquired, requiring less labor to procure them by honest industry, than by the fraudulent means to obtain, conceal, and retain them, but little can be said in extenuation of such transgressors. If crime has been produced by an unfortunate formation of the moral sense of the mind, by an improper and vicious education in youth, the establishment of idle habits, and a disregard to moral honesty, a single year's confinement in the penitentiary to hard labor cannot heal a morbid mind, correct a vicious education, substitute industrious for idle habits, or awaken the victim to a proper sense of that moral truth that none can be happy who are not honest. He who steals a single cent would, if opportunity should offer, steal millions, one who would rob another of an egg, would rob him of his whole estate, and any one who would intentionally buy or receive stolen goods of a less value than five dollars would, if he could obtain them, barter for the stolen goods of a whole city.

In three years confinement in the penitentiary at hard labor, it is thought that those small felons may be corrected, by acquiring a mechanical trade, establishing habits of industry, and awakening the victim to a moral sense of his duty to himself and other members of the community. Twenty years it is thought may in many instances be found a period of time short enough to correct an old and hardened offender, and to protect society against his repeated violence, and disregard to the laws of his country. The confinement of a criminal in the jail of a county as a punishment is found to produce no good result, but on the contrary a public injury, by taxing the county with a great and useless expense. The people suffer more punishment than the culprits by the present mode of confinement in the county jail.

Sixth. The restrictions contained in the 129th section of the Criminal Code, intended to prevent the retailing of spirituous liquors in small quantities is thought to be repealed by the operation of an act entitled "An Act to regulate tavern and grocery licenses," approved February 29th, 1839. No penalty is found in the last mentioned act; it is merely recommendatory, not mandatory, having no vindicatory provisions whatever. The greatest injury to society from the sale of spirituous liquors results from the small measures by which they are sold by those retail dealers who sell them at a great profit to the unthinking and unfortunate victims of their avarice and cupidity. The first degrees of sin and crime are frequently taken at those licensed or tolerated places of idleness and intoxication, called Groceries, Coffee Houses, Exchanges, and all synonymous terms for places of excess and disorder. There it is that our youths are led astray, and their fathers seduced to their own shame, to the wasting of the most necessary means for the immediate support of them and their families. A father's degradation, a son's disgrace, and the ruin of whole families may be traced back to these haunts of vice.

Can it be thought right to draw public revenue from an immoral source, or to make public profit from the vice, the weakness and misfortune of its members. Can it be thought advisable to license such measures, and thus declare honorable this destructive species of traffic in intoxicating liquors to the destruction of families, and the misery of their members, or rather will it not be found more proper and expedient to interpose some corrective, some preventative measure to protect the unsuspecting and unguarded members of community against their great enemy, their unnatural propensity for intoxicating drink, and their still greater enemy, the retailer who panders to their destructive appetite for mercenary gain, reckless of the honor, health and happiness here and hereafter of the unfortunate victim of his gain. I would therefore recommend that all persons be prohibited from retailing intoxicating liquors in a less quantity than one quart in any situation, or under any circumstances whatsoever. All whose wants may require spirituous liquors, may still procure them when needed much cheaper than they now do. And the great evil resulting from congregated masses at tippling shops to the disturbance of the public peace, and the ruin of its subjects will, it is thought be to a great degree prevented.

Seventh. The 159th section of the Criminal Code, directs "that if any person being an elector, shall vote more than once at any election" he shall be fined not exceeding one hundred dollars. This act however does

not provide for the punishment of an incompetent voter; our peculiar form of government (being truly a representative democracy) can only be sustained by a strict adherence to its fundamental principles. The prescribed suffrage of its constituted members. If one person not authorized by law shall be permitted to vote at our elections, then two or two thousand may, and thus persons of other communities not having any interest in common with us may control our public acts, and thereby destroy the very existence of our democratic government.

If any one knowingly not authorized shall vote, he is not only a trespasser on the political rights of others, but a political thief in a social community, and merit greater punishment than any pecuniary transgressor.

The very existence of our liberties, it is believed depends on the just exercise of our rights of suffrage, and the purity of our elections.

The right of suffrage may properly be esteemed as the fountain of life, and the sustenance of the liberties of a free people, and he who shall invade this important right, and corrupt this fountain, deserves the punishment of a felon.

The dark spirits of envy, the minions of aristocracy and dispositions who have the sound of liberty and democracy, it is feared have entered our political Eden, and are now in the midst of us seeking every opportunity, and using every means to destroy the free government of this Union, with this wicked intent, and with the cunning of their origin, these spirits of evil watch with sleepless eye the polls of our election, assuming the various forms that dissimulation may require. In order to prevent so great an evil, and to correct such offenders, I would recommend the amendment of the 39th section above referred to, by prescribing that any person not authorized who shall fraudulently vote or offer to vote at any election, shall be subject to confinement in the penitentiary for any term not exceeding ten years, nor less than five years, and that all judges of elections who shall knowingly admit such fraudulent votes, and all others who shall aid and abet in such fraudulent transactions shall be subject to the same punishment.

The present election laws have made provisions for the correction of all frauds and mistakes in the election of members of the Legislature and county officers. The election of Governor and Lieutenant Governor are under the supervision of the Legislature, and the election of members of Congress subject to the control of that body. But in the election of President and Vice President of the United States, no provisions have yet been made for the correction of the most manifest error, or the grossest fraud in the election of electors for the appointments of those high officers. The undersigned would respectfully submit to the consideration of the Legislature the propriety of prescribing some measure for the correction of mistakes and frauds if any shall hereafter be committed in the election of electors for President and Vice President of the United States.

Eighth. By the provisions of the 148th section of the Criminal Code, it is declared that any person or persons who shall wilfully or intentionally or negligently and carelessly set on fire, or cause to be set on fire any woods, prairies or other grounds whatsoever in the inhabited parts of this State shall be punished, &c. I would recommend an amendment to that section, providing that if any person shall maliciously or wantonly set on fire any woods or prairies not in his enclosure, it shall subject such person

to confinement in the penitentiary, for a term not exceeding five years at the discretion of the jury, and a fine of not less than twenty-five dollars. All the violations of property by the other crimes and misdemeanors set forth in our criminal code, it is thought have been less injurious to the public than the misdemeanor of setting fire to the woods and prairies. Immense has been the destruction of property occasioned by wantonly, wickedly, and carelessly setting fire to the woods and prairies in the southern part of this State within the last two years. This loss falls exclusively upon the agricultural part of community, the most necessary and the most deserving of protection.

Ninth. The 178th section of the Criminal Code directs that juries in all cases shall be judges of the law and the fact. It is thought that this provision takes from the judge presiding, his heretofore supervisory control in instructing the jurists what he deems to be a true exposition of the law. One great and important means of justice (an impartial and able expounder of the law) under the provisions of this section is entirely excluded. It is important to the people and the accused, that when lawyers disagree on the proper understanding of a law, some one competent, unmoved by passion or interest should have power to decide, and who more properly than a judge specially appointed and sworn to see that justice is rightly administered according to law. I would suggest the propriety of amending that section by adding to the last clause the following: "under the instructions of the court or the law."

Tenth. The act entitled "An act to provide for changing the venue in civil and criminal cases, (found page 606 of the revised laws is thought objectionable in this, that the judge has no discretion given him, should the party most palpably swear falsely, and evidently intending to evade instead of obtain justice, require his trial to be moved to some foreign county. The law is imperative, the judge must comply with his request, although he may be satisfied that the fears of the applicant are without cause, or that his affidavit is wilfully false. An amendment to that act is proposed, allowing the judge when the case set forth is for the prejudice of the people of the county, a discretion to permit the change asked for or not, as he may deem most advisable for the ends of public justice.

Eleventh. The 35th section of an act concerning justices of the peace and constables (found page 396 of our revised laws,) is thought defective; the court can only render judgment against the appellant on a confirmation of the judgment, and not against the security given on the appeal, and the appellee is compelled to a suit at law against the security in the appeal to obtain satisfaction of his judgment, if his execution against the principal shall be returned unsatisfied. The propriety of so amending that section, that judgment shall in all appeals when found against the appellant, or when the appellant shall be non-suited, or shall dismiss his appeal be rendered against the appellant, and his security jointly is respectfully submitted.

Twelfth. It is thought that the 13th, 14th and 15th sections of an act entitled "An act for the relief of insolvent debtors," (found page 351 of the revised laws) conflicts with the provisions of the 1st, 2d, 3d, and 4th sections of that act. By the 1st section of that act, fraud is presumed when the creditor has filed his affidavit, that the debtor has refused to surrender his estate in execution; by the 4th section the debtor is enabled to purge

himself of the imputation of fraud by producing a written schedule of his estate of his indebtedness, and of debts due to him by others subscribed and sworn to by him.

But by the 13th section a jury is required to be summoned, and the fact of fraud ascertained by them before the debtor can be required to make out his schedule, thereby preventing the object of the Legislature and the spirit of the law; a discovery of the effects of the debtor by his oath, which the creditor could not otherwise possibly obtain the remedy prescribed in the first section, is strictly a point of equity between the debtor and creditor, and justice can only be reached in the first instance by means of the oath of both parties. It is thought that the 13th, 14th and 15th sections of that act ought to be repealed.

Thirteenth. The act entitled "An act to amend an act relative to criminal jurisprudence; approved January 30, 1827, intended for the prevention of disorder, and for a proper observance of the Sabbath day; although found in the revised code, page 652, is nevertheless not in force, but was repealed by the General Assembly in 1833, as appears by section 191 of the criminal code. Since 1833, we have had no law requiring a due observance of the Sabbath. I would recommend the propriety of enacting the law so (I presume unintentionally) repealed.

Fourteenth. The 1st section of an act entitled "An act concerning costs," approved January 16th, 1827, directs that if in any case the court shall be satisfied that any plaintiff is unable to pay the costs of suit, it shall be the duty of the court to require such poor plaintiff to give security for the payment of costs, and on failure of such poor plaintiff to give such security to dismiss his suit. Nothing it is thought could be more unjust or oppressive, nothing more tyrannical than such a requirement of a poor and unfortunate suitor in our courts. If he is found so destitute where can he expect to find a friend, who without any hope of remuneration will become responsible. This rule may amount to an entire denial of justice; the poor who too often are found as destitute of friends as of property by reason of this unjust rule may be driven from our courts of justice, because some miserly officer fears that he will not be able to collect from him a few dollars of costs. A wealthy tyrant may by this be enabled to suppress the complaints of the poor, and render them still more miserable by his avarice and fraud. It is true that by the provisions of the 2d section, a poor suitor who is abject enough to ask in the name of a pauper, may be permitted to prosecute without liability for costs. But shall any man who is worthy the name of a freeman in this land of liberty be required to thus degrade and debase himself in his own estimation, and in the estimation of the country; it is thought not. I would recommend the repeal of this provision of the first section as above stated.

Fifteenth. The undersigned would in conclusion recommend the propriety of allowing the Attorney General and Prosecuting Attorneys competent salaries independent of the conviction of offenders, that the Attorney General be paid by the State, and the District Attorneys by the counties respectively in which they may prosecute, and to enable the counties to do so without oppression; a further tax of one dollar on all suits hereafter commenced in the several courts with the fees now allowed to the Prosecuting Attorney on conviction, be paid into the county treasury for that purpose.

It is thought that the prosecuting Attorney for the people ought to stand as impartial as the judge himself, and be placed entirely out of the reach of any desire from pecuniary interest, to obtain a conviction. The people require nothing but the most strict and impartial justice, and most assuredly they ought not to make it the personal interest of any of their officers to ask more.

All of which is respectfully submitted.

W. KITCHELL;

Attorney General of Ill.

November 17, 1840.

Which was, on motion, read, and laid on the table.

A message from the Governor, by Mr. Morris, his private Secretary:

Mr. Speaker: I am directed by the Governor to lay before the House of Representatives a printed communication.

Mr. Murphy of Cook, from the select committee to which was referred a resolution to prepare and report rules for the government of the House of Representatives during the present session of the Legislature, reported as follows:

The select committee to which was referred a resolution to prepare and report rules for the government of this House during the present session of the Legislature respectfully report, that they recommend for adoption the rules adopted by the Legislature of 1838 and '9, with the following amendments, viz:

Amend the 5th rule by inserting "one day after" before the words "an adjournment."

Amend the 20th rule by placing "to commit or amend" before "to postpone to a day certain" and "to postpone indefinitely."

Amend the 24th rule by adding "but a motion to strike out and insert shall be indivisible."

Amend the 38th rule by striking out all after the words "disposed of" and insert "the orders of the day, and messages and communications on his table."

Add an additional rule, viz:

Rule 39. That no smoking be allowed in the Hall during the hours of session.

Amend rule 46, by adding "a committee on Banks and Corporations;" which report was concurred in.

Mr. Munsell offered for adoption the following preamble and resolutions.

Whereas, by the Constitution of the United States, there is no restriction or limitation to the term of office of President of the United States, provided the incumbent can procure his continued re-election;

And whereas, it is believed that the re-election of the same individual to the office is of dangerous tendency, by holding out improper inducements to the President to use the vast and hitherto increasing patronage of his office in such manner as will be most likely to secure his re-election, and in the hands of an ambitious, not to say unprincipled man, might, and probably would be, used greatly to the public injury, in sapping the very foundations of our Republican institutions;

And whereas, we believe in the doctrine of rotation in office as being most congenial to our Republican institutions, and best calculated to preserve them; therefore,

Be it resolved by the Senate and House of Representatives of the State of Illinois, in General Assembly met, That our Senators in Congress be instructed, and our Representatives requested, to use their influence to procure such alteration or amendment of the Constitution of the United States as will render the same individual perpetually ineligible to the office of President after having once filled said office.

Resolved, That his Excellency, the Governor, be requested to forward to each of our Senators and Representatives in Congress, copies of this preamble and resolutions; which was read, and on motion, laid on the table.

Mr. Wheeler moved for adoption the following resolutions:

Resolved, That we believe the clerks of the circuit court ought to be dependent on the people for tenure of their office.

Resolved, That a committee of seven be appointed whose duty it shall be to enquire into the expediency of a law limiting the time of holding the office of clerk to two years, and to prescribe the mode of referring the subject to the people, the source of all political power, and report by bill or otherwise; which

On motion of Mr. Dougherty,

Was laid on the table.

On motion of Mr. Peck,

Resolved, That the Committee on Elections be instructed to enquire into the expediency of so amending the election laws as to compel every voter to vote in the precinct in which he resides; which was agreed to.

Mr. Speaker laid before the House a printed communication from the Governor, as follows:

*Gentlemen of the Senate, and of the
House of Representatives:*

You are convened in pursuance of my proclamation of the 15th of October last, and it now becomes my duty to communicate to you the reason of your convocation. While we have abundant cause to be devoutly thankful to an over-ruling Providence for the success which has everywhere attended industry—bountifully rewarded the husbandman for his labor—it is to be deeply deplored that our State is measurably overwhelmed with pecuniary embarrassments.

These embarrassments have grown out of our system of internal improvements, adopted by improvident legislation, at a time when the delusive phantom of speculation seemed to have taken possession of the human mind, and led the world into extravagance and error; and however deeply we may regret the evil which this system has entailed upon us, it would be unwise and unpatriotic to shrink from the responsibility of applying your best efforts to the pecuniary redemption of the State, and the preservation of her honor. The vast debt she has already incurred must be paid, and this can only be done by a strict and rigid maintenance of her credit abroad, and the wisdom with which her measures are directed at home.

A failure to meet promptly a single one of her engagements would inevitably throw around her future operations difficulties which would prove destructive to her character and interest, and in a great degree paralyze her energies.

Although there may be but one opinion among our citizens, that the money for which we are indebted has been injudiciously appropriated, still their virtue and patriotism, their high sense of honor and justice, imperiously forbid delinquency in its payments. I am clearly convinced that they would look upon no calamity which might befall them so great and humiliating as that which would strip them of their reputation for punctuality and probity in their engagements.

When a State loses sight of these paramount considerations in her public policy—when she ceases to hold integrity up to the world as the polar star of her legislation—when she becomes careless of her standing among the communities around her, she will settle down into hopeless degradation, and become the scorn and contempt of the world. Strongly impressed with these sentiments, I have convoked you at the present time, that you may be enabled to provide means for the payment of the interest, which will fall due on the first Monday in January next, on the internal improvement debt. The immense amount of State securities in the market—the general derangement of financial affairs in this and other countries—the suspension of specie payments by the banks, and the contractions of their issues, rendering the difficulties encountered in obtaining money for any purpose almost insurmountable, together with the shortness of time intervening between the period fixed by the Constitution for your regular meeting, and the first Monday in January succeeding, when the interest becomes due, presented doubts to my mind whether the Legislature, if they did not assemble previous to the commencement of their regular session, could adopt suitable measures for the purpose of providing the necessary funds to enable the Fund Commissioner to avail himself of their advantages so as to meet the pending obligation of the State. To obviate these objections I have called you together, and cannot but hope you will act in the premises with promptitude and wisdom, and thus preserve unshaken our plighted faith.

Unless our internal improvement stock should rise above its present selling price in the eastern cities, no alternative has been presented to my mind to meet the exigency but the hypothecation or sale of State bonds below par, which cannot be done under existing laws, but which would be preferable to the loss of honor or the prostration of the character and credit of the State.

The following table will exhibit the financial condition of the State, her indebtedness and resources, and the amount of interest to be paid on the internal improvement debt, on the first Monday of January next:

For sales of land in June last, as per statement of the President of the Canal Board, - - - 70,000

At the date of my last message, 270,182 acres of canal lands remained unsold, since which time I have received no report from the Board of Canal Commissioners, and consequently am unable to state the number of acres that has, subsequent to that time, been disposed of.

A failure to collect the amount due from John Delafield and others, or any part thereof, would render it impossible for the Fund Commissioner to pay the interest falling due on the first Monday of January next on the internal improvement debt, and is the sole cause of your being convened prior to the time fixed by the Constitution. A bill has been filed against Mr. Delafield in the Circuit Court of the United States for the southern District of New York, to restrain him from negotiating the bonds he received, as it is presumed he is neither willing nor able to pay for them. If this should prove true, the State is under no equitable or moral obligation to redeem them. While, therefore, I would admonish you to be sensibly alive to, and zealously watchful of her integrity and honor, I cannot believe she is in duty bound to fulfil an engagement where the other contracting party fails to comply with its conditions. The principles involved in this question have long been recognized by the highest judicial tribunals upon earth, as between individuals, and it would be difficult to discriminate between a case of that nature and the present.

The same reasons which govern the case of Mr. Delafield apply with equal force to the contracts with A. H. Bangs & Co. and the banks specified, should they pursue the same course. It is, however, probable that the Bank of Commerce at Buffalo will return the bonds she obtained to the State, and that the Commercial and Erie County Banks will discharge their liabilities in scrip.

The amount of \$128,000 of bonds was sold by Gov. Reynolds and General Rawlings to the Poughkeepsie Locomotive Engine Company, to be paid for in eight quarterly instalments of \$1600 each, at the Atlantic Bank of New York.

This negotiation was made under an act to authorize a loan for revenue purposes, to be applied to the erection of the state house, and the instal-

ments were transferred, as they became due, to the Bank of Illinois for advances made by that institution for the above object. Four of these instalments are now due, but none of them being paid, suit was instituted by the bank for their recovery. Doubts, however, are entertained of the solvency of the company, and should it fail, the bonds received by it should be placed upon the same footing as those received by other delinquent purchasers.

Having laid before you the financial condition of the State, her available and unavailable resources, in comparison with her indebtedness, the dictates of sound policy require at your hands the adoption of the wisest and most judicious measures to relieve her present necessities, and provide for her future liabilities. It may truly be said, that no former period of our political history presented questions of such deep and absorbing interest. The future destiny of the State for weal or for woe depends upon the direction of the crisis. Unfortunately, at an unguarded moment, she was allured from the path of wisdom and economy by the seductive spirit of speculation, and the wild phrenzy of popular delusion, which spread over every part of the Union, and induced to embark in an extensive system of internal improvements at a period when the country was literally deluged with an inflated circulating medium, which gave the semblance of success to the most visionary and chimerical enterprises. But a general suspension of specie payments by the banks following close upon the seemingly eminent and rapid advancement of the country, and the sudden united and continued withdrawal of their unnatural circulation, spread gloom and dismay, instead of permanent wealth and prosperity; and so extensive and overwhelming has been the change in monetary affairs, that its effects have operated like a spell upon every department of business throughout the country, and nothing but prudence and time, united with the energies and patriotism of the people, can overcome its withering and desolating consequences. With steady perseverance, however, and well directed industry, favored, as we are, with the most fertile soil upon the globe; with a vast extent of territory, susceptible of the most dense population, abounding with natural advantages, and intersected and surrounded with navigation, settled and settling with a population proverbial for their enterprise; can it be doubted that the State will gradually be redeemed from her embarrassments, and ultimately complete such portions of the system as wisdom may dictate, and our interest demand, and thus maintain her dignity and honor unimpaired? Surely her representatives will never consent to be placed in the humiliating attitude of being the first in the Union to abandon their plighted faith. Such an act would be contrary to their interest, derogatory to their pride and integrity, and too monstrously absurd to be for a moment entertained.

A renewal, however, of operations upon our public works, or any portion thereof, at the present time, seems to be forbid by the condition of our finances. The immense debt already fastened upon us, the impossibility of effecting a sale of State bonds at par, and the general derangement of financial affairs, present to my mind insurmountable obstacles to their further prosecution under existing circumstances. But should your wisdom dictate otherwise, and you determine to proceed with a portion of them, then the salutary lessons of experience we have had, and every principle of economy and public interest, point out the plan of opera-

tions too obviously to be misapprehended either as regards the present or any future period.

All the means and energy employed should be concentrated on the most useful and important road first, until that is completed, and then the next important, until all are finished.

By pursuing this course, the income upon the roads in operation would in all probability pay the interest upon their cost, and greatly facilitate the construction of others, while the comparative amount of money which might be required, could be obtained on more favorable terms. The question, therefore, naturally arises, whether we proceed with our internal improvement system or not, what policy can be adopted which will best subserve the present emergency, and promote the public weal in our future operations. Laying aside any doubt as it regards the payment of the January interest, which can only be done by the hypothecation or sale of State bonds at some price, how is a permanent fund to be provided to meet the future interest, and, eventually, the principal, as they respectively become due and payable.

The policy of paying the interest out of the money borrowed must ere long be abandoned, and the only alternatives which have suggested themselves to me is an increase of our banking capital, and a resort to direct taxation. The solution of these questions call into requisition the united wisdom of this General Assembly; and, in order to enable you to arrive at a correct conclusion, and settle down upon a policy, the momentous consequences of which deeply involve the interest and patriotism of the people, too much care cannot be taken in adopting the line of action to be pursued. Shall the first alternative be adopted? The consequences attendant upon and inseparably connected with an increase of our banking capital, should be narrowly scanned and well weighed in the balance before venturing upon such a resort. In the first place, should that policy be pursued, the capital cannot be obtained without involving the State in an additional debt corresponding with the increase; and if obtained, could such a resource be relied upon to pay any portion of our liabilities beyond the interest accruing upon its own account? To insure such a result to an extent commensurate with the object for which it would be designed, you would necessarily be compelled to raise the interest upon bank accommodations to ten or twelve per cent., and in this way tax the people some five or six per cent. upon the whole amount of notes issued under such a system, the benefit of which would accrue as well to the private stockholder as to the State. Then, if the bank should be well managed, we might expect the highest dividends, but the late and repeated expansions, suspensions, and contractions of the banks generally, furnish ample proof that the paper system is fundamentally wrong in principle, destructive in practice, and at war with the best interest of the country, and the genius and spirit of our republican institutions. Its tendency and inevitable result is, to spread merely the appearance of prosperity for a season, and then gloom, revulsion, and distress; thus proving that it has no power to regulate and render stable the currency of the country.

Whatever plan may be devised to provide means to pay off the liabilities of the State, none can be adopted that will not operate as a tax upon the property and industry of our citizens; and it ought not to be concealed that if the vast debt which has been incurred on account of our in-

ternal improvements is ever paid, it must be done through the medium of taxation. The dictates of wisdom and prudence, as well as sound policy, therefore, require that the most simple and economical plan should be pursued; and it only remains to determine between a direct and an indirect mode. I am aware it has often been alleged that the people would not submit to a system of direct taxation; hence, the erroneous, ruinous and irrepugnant policy of indirect taxation has crept into our institutions, and so fearful have legislators been of the indignation of their constituents that the sources of its origin have been carefully concealed; to which cause, more than any other, may be attributed the host of monopolies, with their train of desolating evils, that are fastened and preying upon the vitals of the country. By such an iniquitous system large and excessive revenues are collected, and, consequently, wild and extravagant appropriations made. If, in a Government like ours, based upon the virtue and intelligence, and administered by the will of its citizens, we are to be told that they will not tolerate the most economical, certain and effectual mode of discharging their liabilities, then, indeed, we are compelled, however reluctant, to subscribe to the federal doctrine of their incompetency to regulate their own affairs, and constrained to acknowledge that we only enjoy the name and shadow and not the reality of republicanism.

But being, as I am, firmly persuaded that they are always patriotic in their sentiments; instead of temporary expedients, I have no doubt they would gladly embrace the most direct and judicious plan to relieve themselves from any embarrassments in which they may be involved. This would especially be true if they were always kept acquainted with their real condition, which would place them upon their guard, and enable them to avoid many calamities which otherwise would be entailed upon them. I cannot therefore, consistently with that duty I owe to the public welfare or my private feelings recommend to your favorable consideration an increase of our banking capital as a source of revenue or for any purpose whatever. I do not believe the people require it, or, if they did, that it would afford them any assistance.

The question hence arises whether we shall resort to direct taxation. I am clearly of opinion that it would be better to postpone the adoption of this policy for the ensuing two years. Although an increase of taxes may ultimately be inevitable, yet, under existing laws, the amount collected will annually become greatly enhanced.

The vast quantity of public lands entered in 1835, '6, '7 and '8, which are not yet taxable; the continued increase of wealth pouring into our State through the channels of emigration and trade, and the present scarcity of money, point out the propriety of making a loan to meet the interest upon our internal improvement debt until your next regular session.—The quantity of lands entered during the year 1835 and 1836 exceeds 5,229,227 acres. Estimating its value at \$5 per acre, the additional revenue which will annually arise from this source under the present law, after the expiration of one and two years will be \$52,292 26, and an undiminished augmentation from lands entered in 1837 and '8 will be continued, and so on continually, at a less rapid rate, however, for many years to come.

By setting apart, and exclusively applying the proceeds arising from this continual, unailing and increasing source of revenue to the liquidation of the interest of our internal improvement debt, and by adopting

rigid economy in the public expenditures of the State, the lands now taxable, together with the personal property, will ere long, yield a surplus, which added to the above resources, will go far towards the payment of that interest as it accrues. Under this policy the augmentation of taxes, when resorted to, would be comparatively of inconsiderable amount. In connection with this subject, I would suggest the propriety of reducing the county levies of taxes, and in the same, or less proportion, increasing the State taxes. By amending the revenue law so as to limit the county tax to one fifth, and increasing the State tax to one fourth per centum, the taxes would be reduced instead of increased, and the counties would still, with proper economy, be supplied with means to meet all necessary expenditures.

In the meantime, or before resort is had to an increase of taxes, the State may derive aid from other sources. Mr. Calhoun, of South Carolina, at the last session of Congress, introduced into that body a bill ceding to the States the public lands lying within their respective limits, on condition of their paying into the National Treasury, on the first of February annually, one half of the proceeds arising from the sales, reserving the other half to themselves. The adoption of this measure would be nothing but an act of justice to the new States, and coming, as it does, from a distinguished southern Senator, it exhibits the liberal and enlightened policy of the statesman. In view of its justice and propriety I would recommend that you instruct our Senators and request our Representatives in Congress to use their endeavors to procure its passage.

The issue of scrip on account of the internal improvement system and canal, has resulted, like most other temporary expedients, in a great depreciation of its value, which is working a pernicious influence upon the interest and credit of the State. Large amounts of it have been purchased by speculators at prices greatly below par, to the injury of the community, to an amount corresponding with its depreciation, and but little hope can be entertained of advanced prices so long as its circulation is continued as an article of trade. I would, therefore, respectfully recommend the adoption of such measures as will provide the means for its earliest redemption.

In the month of March last, General Thornton and others, as a committee on the part of the canal contractors, visited me for the purpose of making arrangements to provide means to pay off the estimates as they would become due for the remaining part of the year; alledging that unless a positive assurance was given that the money would be forthcoming to meet these estimates, the contractors would be forced to abandon their contracts, and that in this event general distress and bankruptcy in most cases would ensue, and consequently great loss to the State. Knowing that bonds could not, at that time, be sold at par to raise money for that purpose, they proposed, on the part of the contractors, that bonds should be placed in the hands of suitable agents to the probable amount of the expenditures for the year, to be paid to them at par; to which I assented, conditioned that the bonds so paid should be placed in the hands of an agent whom I might approve, to be sold for their benefit in our eastern cities or a foreign market to which condition they assented, and I, therefore, placed in the hands of Gen. Thornton, Canal Commissioner, \$1,200,000 in bonds for that purpose, \$1000,000 of which has since been sold by him in London, as agent for the contractors, at the rate of eighty-five per cent., which has

enabled them to prosecute the work on the canal throughout the season with energy and success, and, as I am informed, without loss, as the reduction in the price of labor, provisions and materials has equalled the fifteen per cent reduction on the bonds. Under the circumstances, I would suggest the propriety of the State incurring the expense and compensation of the agent while engaged in the performance of his agency. This would seem to be just and equitable, as the payment of bonds, instead of money, to the contractors, superseded the necessity, on my part, of employing an agent to sell them in a foreign market, and consequently threw the expense and responsibility of the negotiation upon the contractors themselves, besides the loss of fifteen per centum upon the whole amount of bonds sold. It is proper that I should here remark, that I exceedingly regretted the necessity of paying the contractors with bonds, but as money could not be raised by a sale of them at par, to meet the estimates on the canal as they became due, and the contractors proposed to receive them at that rate, and hazard a sale of them on their own account, I felt constrained from a sense of duty towards them, and good faith on the part of the State, to place the bonds in the hands of the Canal Commissioners for their benefit.

By an act of the 1st of February last, the Commissioners of the Illinois and Michigan canal were required "to sell so much of the canal lands and lots the present year as were required to pay the interest on loans made for canal purposes." As early as April last the President of the Board verbally informed me that it would be impossible to realize money from the sale of these lands to pay the interest due in July following, and, consequently, other means were necessary to be resorted to to furnish the funds for that purpose. To meet the interest upon bonds sold prior to 1839 by Gov. Duncan, and payable in New York, the sum of \$30,000 was loaned by Col. Mather, President of the State Bank of Illinois, and to pay that portion of the interest falling due in Europe, a draft was drawn by Judge Young upon Messrs. John Wright & Co., of London, for £20,000, it being part of £30,000 advanced by said company on a contract for \$1,000,000 canal bonds entered into in October, 1839. £10,000 being the residue of the above £30,000 advanced by said Wright & Co. has been placed on deposit in the U. S. Bank, and I have instructed Judge Young to apply so much thereof as may be necessary for the payment of the interest becoming due in N. York on the first Monday of January next; and I am informed by Gen. Thornton that the means are provided to meet the interest due in London at the same time. As the contract with the Messrs. Wright & Co. was much animadverted upon by the last Legislature, notwithstanding I was convinced that no sale could be made more advantageous to the State at the time it was effected or during the present year, yet I hesitated much before assenting to its confirmation. Being, however, informed that no other means could be obtained to meet the July interest in London to prevent a forfeiture of good faith on the part of the State, I at once determined to confirm the contract. The residue of the bonds, after deducting the £30,000 advanced, still remain in the hands of Messrs. Wright & Co., and are as yet unavailable to the canal fund. If they are not sold prior to the 1st day of April next, the contract ceases by its own stipulations, and, in that event, no means are provided for the prosecution of the work on the canal for the ensuing year.

Subsequent to being informed by Gen. Thornton, that canal lands could

not be sold to meet the July interest upon the canal debt, he communicated to me, that in June last, the Board effected a sale, to the amount of \$70,000.

Whether the money is available or not, I am uninformed, not having been furnished with the proceedings, or report of said Board during the year, which prevents me from laying before you as full and complete a statement, in relation to the progress and condition of the Canal, as I desired.

About \$2,215,000 of Canal stock has been sold under the act of 1839, leaving a balance, authorized to be sold by said act, of \$1,755,000; but the present depreciation of American securities does not afford a reasonable expectation that a sale can be made of the residue of the stock at par, in time to meet the wants of the Canal. The great amount already expended upon this stupendous work, and the vast sum yet required for its completion, a portion of which must be immediately had, presents a subject for your consideration well worthy of mature deliberation. The accruing interest upon the debt which has already been incurred, the delapidation of the work which has been done, and the destruction of fixtures and other preparations for its prosecution, the loss of which must fall upon the State if it is abandoned, seems to forbid its suspension. It is, therefore, submitted to your wisdom and discretion what means are to be provided for its future progress. In view of the difficulties to be encountered in obtaining money, I would renew my former recommendation of selling so much of the Canal lands as will be sufficient to pay the accruing interest upon its debt.

Rigid accountability being essential to the fidelity of public officers, I feel it my duty again to recommend a thorough and rigid scrutiny into the conduct of all those connected with the management of our finances.

It again becomes my duty to call your attention to the suspension of specie payments by the State Bank, and the Bank of Illinois, at Shawneetown. The frequent failures of institutions of this character to meet punctually their engagements, solemnly admonish us that they can never be of any permanent utility, until the security to the public that their notes will be redeemed upon presentation, is increased, and they are thrown entirely upon their own resources, instead of Legislative indulgence. Twice, in the short space of two years, have they violated their obligations, and twice has that violation received legislative sanction. It is to be hoped, however, that a similar occurrence will not again take place, and that our Banks will prepare for resumption of specie payments at an early day, and, at least, take care of themselves for the future.

Having found no cause to change my sentiments in relation to the banking system generally since the date of my last message, it is unnecessary that I should enter upon that subject at length on the present occasion. The pernicious consequences inflicted upon the country by the operations of Banks, within the last few years, is too indelibly stamped upon every department of business to be misapprehended by the most sceptical. The fluctuation in the prices of labor, property and trade of every description, have kept pace with the alternate expansions and contractions of their issues; and whether the injuries thus sustained are attributable to their guilt or innocence, the effect upon the prosperi-

ty of the people is the same. So interwoven have the affairs of our citizens become with those institutions, that it cannot be denied that they control and direct the circulating medium, commerce and wealth of the country; and not only so, they frequently wring from legislative bodies an acknowledgment of their utility, and exercise an influence over the public mind which it is difficult to overcome. Thus have they fortified themselves behind an almost invulnerable rampart, erected by encroachment, and justified by the tyrant's plea, "necessity."

Usurpations of whatever character are usually preceded with the persuasion that they are essential to the advancement of the people in the scale of prosperity and happiness; and in this way they are stripped of their rights, and bound in the chains of political slavery before they are aware of the danger. To guard against such startling power, concentrated in Banks, all the virtue and energy of the patriot must be called into action, and constant requisition. Already one important blow has been struck for the severance of this power from the Government: its deadly grasp was broken by the adoption of the Independent Treasury. If this salutary measure of public safety continues in operation, it will exercise a healthy and controlling influence upon their issues, limit the amount collected to the wants of the Government, and teach them the necessity of relying entirely upon their own resources. If they are deprived of the public revenue, and, consequently, a participation in the management of a momentous department of public business, it will be impossible for them successfully to attribute their revulsions and suspensions to the existing administration. The whole world would know the fault was alone their own, and their labors to conceal it would add a deeper stain to their guilt. However true the argument, that they afford facilities to trade and commerce, the conclusion would be preposterous, that these facilities would be more certain and useful if they were connected with the management of our national finances.

Being convinced of the propriety of providing a fair compensation for prosecuting attorneys, I regard an increase of their salaries as absolutely necessary to the advancement of the public welfare. It will be impossible to command the best talents of the State, in the administration of justice, which is highly essential, if a fair and just equivalent is not held out for the enlistment of that talent. The adoption of this course, instead of being a useless expenditure of money, would, I have no doubt, conduce to that economy, which is imperiously demanded by our condition.

Although I know of no instance of any individual coming from another State into ours to vote, yet I have been informed from sources in which I place the utmost reliance, that extensive arrangements were concerted among a portion of the citizens of another State to come into Illinois for that purpose at our recent election for President and Vice President. In view of the danger to which we are exposed from such innovations along the borders of the State swept by the Mississippi and Ohio rivers, I feel it my duty to recommend the passage of a law, providing for the apprehension and rigid punishment of offenders who may invade the rights of the elective franchise. The startling frauds which have recently been perpetrated in New York and other places for the

destruction of these sacred rights, I regard as little better than high treason, and striking a deadly blow at the foundation of the government.

A frequent recurrence to fundamental doctrines being essential to the perpetuity of free government, it is a matter of the first consideration, that we keep the respective political rights of the Union, the States, and the people clearly defined. The security of each depends upon the separation and well regulated balance of power between them; and care should, therefore, be taken to prevent strengthening the arm of the Confederacy. Congress should exercise no power but such as has been expressly delegated, or is absolutely necessary to carry the delegated power into effect. There is certainly no necessity for encroachments upon state sovereignty or individual privileges. If the General Government will protect us from foreign invasion and domestic insurrection, the great object of its formation, and deal out justice with an impartial hand, it is all we can expect or desire. The one will leave us in the quiet enjoyment of our pursuits, while the other will afford us no cause of complaint. But when it draws within its grasp powers never surrendered to it, and adopts partial legislation as the rule of its action, then, indeed, it is verging rapidly to monarchy, and may justly alarm the fears of the patriot.

The idea that the people should look up to it for assistance in times of pecuniary distress, is most revolutionary in its tendency, and this revolution is speeded in its object when the laws are directed to the promotion of private interest, instead of the general good. Hence, the various and diversified charters granted to monopolizing companies, are sapping the foundation of the Republic, destroying the equality of citizens, and creating distinctions in society. In the pure republican days of the Revolution, merit and demerit, virtue and vice, alone drew the line of separation between one man and another: now the pampered fed monopolist scorns an association with honest poverty. Why is this? It is because the Government lost sight of the object of its formation, and by venturing upon special grants of power, gave rise to a modern aristocracy, who are mere consumers, living on the productions of the poor man's labor; and although the pernicious effects of such legislation may be unobserved by many, still it is leading to the most fatal consequences—I fear to civil revolution.

Ours was intended to be a government of limited power, plain in its construction, and economical in its administration; not one of unbounded sway, special privileges, hereditary descents, titles and nobility. Yet its frequent inroads upon individual rights, and the sovereignty of the States, furnish living memorials of its increasing strength, and solemnly warn us to be vigilant and active in the maintenance of our independence. Although the virtue and patriotism of the people were enabled to triumph over a National Bank, the alien and sedition laws, and their kindred acts, they may yet yield their freedom to the same despotic spirit, which, always restless, and never wearied in its exertion for conquest, approaches them under various disguises. Fearful of an appeal to their reason, resort is had to show and parade to inflame their passions; thus proving that, while their influence is courted, the utmost contempt is entertained for their intelligence. The history of all republics which have preceded us bear evidence to the fact, that the wily and ambitious

usually resort to such resources to corrupt the public mind and public morals previous to seizing upon the reins of supreme authority; and if we do not guard ourselves against such insidious devices, we will lose our liberties in the same way, and have nothing but the wreck of a violated Constitution, and a ruined country to transmit as a legacy to our children. Let the Government be free from monopolies and the influence of wealth, just in its administration, and economical in its expenditures, liberal in its policy, and free from encroachments, taking care of itself, and leaving the people as much as possible to the enjoyment of their own pursuits, and it will insure its own perpetuity, and the freedom of its citizens.

Having called your attention to various interests of the State which presented themselves to my mind as worthy of your first consideration, I doubt not that such as I have omitted will be suggested by your own wisdom. Hoping that you may be guided by patriotism in all your deliberations, and a sincere desire for the promotion of the public welfare, and that your labors may be crowned with signal success, I take my leave of you with earnest benedictions to Almighty God for your happiness individually and collectively.

THO. CARLIN.

Resolved, That a joint select committee of three from the House of Representatives, and two from the Senate, be appointed, whose duty it shall be to repair to Lockport, at an early period after the adjournment of the Legislature, and investigate the whole proceedings of the Commissioners of the Illinois and Michigan Canal.

Resolved, That it shall be their duty to enquire into the amount of expenditures of money on said work, and the various objects for which such expenditures were made, whether direct or contingent.

Resolved, That they be instructed to examine the cost of all offices, warehouses, or other buildings, the property of the State, and of all roads constructed on said work, from the canal funds; whether the interest of

the State, or the necessities of the canal demanded such buildings or expenditures, and whether they were not constructed at exorbitant prices.

Resolved, That they examine into the number of engineers, assistants, rodmen, clerks, and other persons employed by said Commissioners; also, the duties performed by them, and whether a reduction may not be made, both in the number and salaries, without detriment to the public interest.

Resolved, That it shall be their duty to ascertain whether the proceedings of the Commissioners have been in conformity with the provisions of law; whether public notices have always been given previous to the letting of contracts; whether contracts have been given, at high prices, to favored individuals, without public notice or competition; whether favor, partiality, or political motives have governed the Commissioners in the admeasurement of work, and payment of estimates; and, whether loss to the State, and the ruin of individuals have not resulted from such practices.

Resolved, That they be also instructed to hear all complaints made by contractors against said Commissioners, and to report these and such other facts respecting the affairs of the canal as they shall be able to elicit, at the next session of the Legislature; and for this purpose they shall have power to send for persons and papers, and examine witnesses on oath.

"Resolved, That relying upon the patriotism of the people, and the future resources of our State, we hereby pledge ourselves to make every reasonable effort, short of an increased direct tax upon the people, to meet the interest on the State debt as it falls due, and thus preserve the honor and credit of our State unsullied before our sister States and the world;" which resolution, with the proposed amendment, was,

Springfield, Dec. 1, 1840.

To the Hon. the SPEAKER of the *House of Representatives*:

SIR: In obedience to a resolution of the Senate, bearing date on yesterday, requesting a report of the success of my negotiations, the amount of interest due 1st of January, 1841, and the available means to pay it, has just reached me, or I should have given it an earlier answer.

The amount of bonds sold on account of bank stock,	\$2,665,000
--	-------------

On account of Internal Improvements,	3,187,000
--------------------------------------	-----------

Total,	\$5,852,000
--------	-------------

Upon this sum interest will be required on the 1st January, 1841, which will amount to \$175,560.

Of the above bonds \$300,000 were sold to three banks at Buffalo, New York; and under their contracts an interest account was to have been kept, and no coupons presented for payment until the last payment was made. They have, however, passed the bonds, and some, if not all, of the coupons, were presented for the interest, and will no doubt be presented in future.

In July, I thought of refusing to pay them; but on consulting my counsel, and various friends in New York, it was concluded that when passed into the hands of innocent purchasers the State had no right to refuse to pay them.

Messrs. Wright & Co. of London, have sold about \$250,000 worth of

bonds, the money arising from the sale of which went to pay our interest on the 1st January, 1840, and advancements previously made by the Bank of the United States to the Fund Commissioners, they (Messrs. Wright & Co.) have also delivered over to Thompson & Forman, for railroad iron, bonds to the amount of the iron which has been shipped; but what amount of bonds they have paid over I am not yet informed. Messrs. Wright & Co., however, inform me that they will provide the interest on the bonds they have disposed of.

The State has due her—

From Mr. Delafield, over and above interest, about	-	\$412,000
From the City Bank of Buffalo, and the Tonawanda Bank, taken from Delafield, about	- - - - -	21,000
From A. H. Bangs & Co.	- - - - -	50,000
From the Bank of Commerce at Buffalo	- - - - -	90,000
From the Erie County Bank	- - - - -	67,500
From the Commercial Bank, about	- - - - -	33,000
Total,		\$673,500

Since my report of August last, the Commercial bank of Buffalo has paid me in State scrip, about \$57,000—thus reducing her debt, then \$90,000 to \$33,000. The Erie County Bank, I understand, has scrip, and intends paying her debt in it likewise.

I have no idea we shall realize in money any thing from the above debts; but in for our interest, due 1st January, 1841.

That I might report fully in relation to the above debts, and ascertain the chances and best mode of obtaining money to pay our January interest, and the freights, duty, and charges on the railroad iron, in progress of shipment to New Orleans, by Thompson & Forman, of London, under their contract with the late Fund Commissioners, I was induced to visit New York, just before the time of your convention.

We have obtained an injunction against Mr. Delafield; and from what Mr. Ruggles, our counsel, had written me, I was in hopes a favorable compromise could have been effected. On sounding him, however, he offered only 75 per cent. of the claim in the *merest trash* that you can imagine—worse than his offers to me last summer, which were reported in my correspondence with him. From all that I can learn of the situation of Mr. Delafield, I do not believe he is able to pay the whole debt; and unless, in a compromise, he can swindle the State out of enough to make himself comfortably rich, I think he is disposed to keep all. I fear the law cannot force from him justice to the State; and I believe more can be gotten from him in a compromise than in any other way. But still, whoever makes the compromise, must suffer him to make a hundred or two thousand dollars, or nothing can be effected. Without direct authority from the honorable Legislature, I was not disposed to give him so large a bonus, and therefore could effect nothing.

No part of the debt of \$50,000, due from A. H. Bangs and others, has been paid. Pratt, one of the parties, offers 15 bonds in full discharge of his obligation; and our only hope of doing better is to implicate the stockholders and directors of the Onandago Bank. Our attorneys are

in hopes they can be made liable, and are now in search of information for that purpose.

The Bank of the United States has agreed to advance freights, &c. &c. on railroad iron, up to the 1st February next, if she can be repaid such advances at that time. I placed in her hands 100 bonds as a guaranty that her advances should be paid, as I thought it out of the question that the iron of a sovereign State should be sold for its freight and charges.

I found money in New York more in demand, and more difficult to obtain, than it was a month or two ago. Our only chance of obtaining money for our January interest will be by hypothecation of Bonds on temporary loans of four or six months, or by sale of the bonds at what they are worth in the market. Our bonds are now worth from 76 to 80 per cent., a little less than they were worth a short time since. All other stocks, however, have suffered the same depreciation, and it is attributed to the preparation of the Banks to resume specie payments, and the unsettled and belligerent attitude of the leading powers of Europe.

Messrs. Nevins, Townsend, & Co. of New York, whom I have always found to be the steady and efficient friends of our State, kindly promised to try and procure for me the January interest, and the advances of the Bank of the United States, if the honorable Legislature would authorize temporary loans. These same gentlemen advanced to me for the State Bank of Illinois \$50,000, to pay our last July interest; this sum is still unpaid, and I hope provision will be made for its payment.

Our State will be entitled to the next semi-annual dividend on her Bank stock, which will probably be about \$90,000. We are indebted, however, to the State Bank the above named \$50,000, and to the Bank of Illinois about \$238,000 or \$240,000, for advances made a year or two ago. Whether the Banks shall retain the next dividend or not is for the honorable Legislature to say.

I hope the honorable Legislature will adopt at once, and, if possible, unanimously, a resolution that the *Honor and Credit of the State can, ought and shall be maintained*; and that authority be given to some person to provide, on the most advantageous terms, the January interest, and the money necessary to pay freights and charges on the railroad iron, now in progress of shipment; this done, the manner by which subsequent interest shall be paid, can then be discussed and agreed upon. If our interest in January and July next be punctually paid, and some policy adopted by which it can be paid afterwards, I have no doubt our Bonds will immediately rise in value, and ultimately command a higher price than they have ever done.

Since the above report was in part written, the following resolution of your honorable body has been handed to me:

SENATE CHAMBER, Nov. 30, 1840.

R. F. BARRETT, Esq.

SIR:—The following resolution was this day adopted by the Senate, viz:

Resolved, That the Fund Commissioner be required to report forthwith to the Senate, whether or not the \$50,000 in the hands of Judge Young and Gov. Reynolds at the date of his report of August 20, 1840, has been by those gentlemen or either of them, paid over to the Fund Commissioner; and if not paid, whether or not the Fund Commissioner

has made demand for the same, and if demanded and not paid, what reasons were offered for refusing to pay; and also, if within the knowledge of the Fund Commissioner, how long said \$50,000 has been in the hands of said Young and Reynolds, or either of them previous to his said report."

In answer to the above resolution, I have only to say, that this said \$50,000 belongs to the Canal Fund of which the Governor is the fiscal agent. I have had no right to demand it, and of course never did. I understood, however, from Judge Young and Gen. Thornton, that it was drawn in February last, under the contract with Messrs. Wright & Co., entered into last year by Judge Young and Gov. Reynolds.

My report of August was designed to explain to the Governor, and the members elect to the Legislature, the necessity of a called session, and to prepare them for prompt action on the finances of our State. To give them a full view of the finances upon which they would be called on to act, I also gave what I knew of the Canal debt, as obtained from the public documents and other sources. I knew at the time, that it was not my province to speak of the canal and its debts, but the interest was to be provided for all the debts of the State, and it was needless to provide for one class of debts, and not for the other, I therefore, spoke of this \$50,000 in the hands of Judge Young and Gov. Reynolds, as available to the Canal Fund.

I have the honor to be,
with very much respect,
your obedient servant,
RICH'D F. BARRETT,
Fund Commissioner.

The Speaker laid before the House a communication from the State Bank of Illinois, as follows:

STATE BANK OF ILLINOIS,
Springfield, Dec. 1, 1840.

To the SPEAKER

Of the House of Representatives, of Illinois.

SIR:—I have the honor to enclose you a communication from the Directors of this Bank to the General Assembly, which you will please lay before the House of Representatives.

Very respectfully,

your obedient servant,

THOMAS MATHER,

President.

STATE BANK OF ILLINOIS,
December 1, 1840.

To the Hon.

The GENERAL ASSEMBLY of the State of Illinois.

In compliance with one of the provisions of the 12th section of the law entitled "An act to increase the capital stock of certain Banks," the Directors of the State Bank of Illinois have the honor to submit to the General Assembly, the accompanying statement of the condition of the Bank and its branches, on the 16th day of November, being the date of the last returns from some of the branches.

In making this report the Directors take occasion to state that, from the date of the present suspension of specie payments, they have made it a leading object in the management of the Bank, to keep it always prepared to resume payment simultaneously with the other Banks; and that the Bank is now, and has been for some time, ready to resume, and

is only awaiting the action of the banks which led the way in the suspension.

A reference to the accompanying statement will show a large amount of ready means held by the Bank, and, in addition to this, a negotiation has been concluded in New York, which will place at the disposal of the Bank, in that city, a very considerable sum of money.

With this ample provision for a resumption, it is very gratifying to the Directors, to be able to state that there are strong indications that the highly desirable event of the resumption of the most of the present suspended banks will take place during the next month.

While the Bank is thus ready to recommence the payment of specie, in concert with the leading banks, the reasons heretofore submitted to the Legislature, against the attempt to pay specie by this Bank during a general suspension, still exist, and have an increased influence now, when the general resumption seems so near at hand.

By order and in behalf of the Directors,

THOMAS MATHER,

President.

Which was read, and,

On motion of Mr. Murphy of Cook,

Laid on the table, and one hundred and fifty copies ordered to be printed for the use of this House.

The Speaker laid before the House, the following communication from the Bank of Illinois:

BANK OF ILLINOIS,
Shawneetown, 24th Nov., 1840.

To the Honorable the SPEAKER

of the House of Representatives:

SIR: In compliance with the 12th section of the act entitled "An act to increase the capital stock of certain banks," &c., I have the honor herewith to furnish you with a full and complete statement of the condition and financial operations of this Bank and Branches, on the 2d inst. On examination of which you will perceive that all the liabilities of this Bank, except to the Stockholders, amounts to \$1,400,458 50.

And that the Bank has the following means, to wit:

Due from other banks	-	-	-	308,539 63

Bills discounted,	-	-	-	\$1,339,215 00
Bills of Exchange	-	-	-	270,738 40

\$1,609,953 40

As the bank, with many others, suspended specie payments in November last, it is with pleasure I inform you that we are now prepared for a resumption. And as the 15th of January has been agreed upon by the eastern banks, for the resumption of specie payments, we therefore look forward to that time in hopes to see confidence once more restored, and the currency of our country fixed upon a safe and sound basis.

During the suspension of specie payments as above mentioned, it was thought prudent by our Board to declare a smaller dividend than heretofore, believing that it would be more advantageous to the bank, and render greater security and confidence to the note-holders. In consequence of which, this bank has declared a dividend for the last year of six per cent. only, and by this means, has added to the surplus fund, during the past year, upwards of sixty thousand dollars, and we expect, on the first of January next, to add twenty thousand dollars more, making an aggregate sum, in the space of eighteen months, of about eighty thousand dollars, which will hereafter be set apart for a contingent fund.

Under date of the 5th of November, 1838, I made a statement to the Auditor of Public Accounts of the amount of bonus due from this bank, on the capital stock paid in on the 1st of January, 1838, and 1839, calculated on the amount of capital stock paid in by individuals, and the State. After making this statement, we understood that the bonus was not required

to be paid on the State stock by the State Bank, or at least it was not paid by them, and believing that the Legislature would not require more from this Bank than the State Bank, the whole matter has been suffered to remain until this time, without paying any of the bonus. We have now made a statement to the Auditor of Public Accounts, showing the amount of bonus due on the capital stock paid in by individuals up to the 1st of January, 1838, 1839, 1840, and 1841, which we propose to settle in Auditor's Warrants, that have been paid by this bank. As there appears to be considerable doubt whether the bonus must be paid on the State stock or not, we have concluded to adjust the bonus on the individual stock up to January next, and leave the bonus on the State stock for future investigation.

All which is respectfully submitted.

On motion of Mr. Webb,

The same was referred to the committee on Banks and other Corporations, when

The House adjourned.

THURSDAY, DECEMBER 3, 1840.

House met pursuant to adjournment.

Mr. Crain from the committee on Engrossed Bills, reported as correctly engrossed, a bill for an act to amend an act entitled "An act to provide for the settlement of debts and liabilities incurred on account of internal improvements in the State of Illinois," approved February 1st, 1840.

On motion of Mr. Minshall,

Resolved, That the committee on Banks and other Corporations be instructed to enquire into the expediency of increasing the banking capital of the Bank of the State of Illinois, \$3,000,000, and the expediency of appropriating the dividends to arise therefrom to the payment of interest on the State debt, and that they report by bill or otherwise.

On motion of Mr. Dodge,

Resolved, That a joint select committee of three from the House of Representatives, and two on the part of the Senate be appointed to draft a memorial, praying Congress to make a further donation of land to the State of Illinois, to aid her in the prosecution of the Illinois and Michigan Canal.

Ordered, That Messrs. Dodge, Henderson and Leary be the committee on the part of the House.

A message from the Senate, by Mr. Berry, their Assistant Secretary:

Mr. Speaker: I am directed by the Senate to inform the House of Representatives that they have concurred with them in the adoption of a resolution, having for its object the appointment of a joint select committee for the purpose of investigating the official acts and doings of the Board of Public Works; and that they have appointed Messrs. Hacker and James the committee on the part of the Senate.

Also, that the Senate have refused to concur with the House of Representatives in the adoption of the resolution in relation to the removal of the Seat of Government from Springfield to Vandalia.

By a joint resolution, I am also directed to lay before the House of Representatives, the Reports of the President of the State Bank of Illinois, and the Fund Commissioner, and that they have ordered the printing of the usual number of copies of the report of the Fund Commissioner for the use of the two Houses.

On motion of Mr. Munsell,

The resolution proposing an investigation into the proceedings of the Board of Canal Commissioners, was taken up for consideration; and

On motion of Mr. Hardin,

The resolutions were amended by striking out all of the first resolution that relates to the appointment of a joint select committee of the two branches of the Legislature, to the word "Legislature" in the 4th line, and insert the following:

"That the committee on Canals and Canal Lands be instructed to report a bill to this House, authorizing the Governor to appoint a board of three auditors, who shall proceed to Lockport, &c."

And add to the end of first resolution the following: "and make report of the result of their investigation to the Governor, which shall be published in the paper of the public printer."

Also by adding the following additional resolution:

"Resolved, That said committee also insert in said bill, that the said board of Auditors, audit, settle and adjust the accounts of said Canal Commissioners and Treasurer of said Board, as well of those heretofore in office as those now in office, and that in case any one of said officers is indebted to the State, that they require suit to be brought against such person on their official bonds; which resolution as amended was then agreed to; when,

The House adjourned,

FRIDAY, DECEMBER 4, 1840.

The House met pursuant to adjournment.

Mr. Murphy of Cook, from the committee on Banks and other Corporations, to which was referred the communication from the State Bank of Illinois, reported the same back to the House, and recommended the printing of 150 copies thereof; which report was concurred in.

Mr. Peck, from the select committee appointed to investigate the claims of N. H. Purple to a seat in this House as a Representative from the county of Peoria, reported as follows, viz:

The Select Committee, to which was referred the Petition of Norman H. Purple, contesting the right of William J. Phelps to sit and vote as a member of the House of Representatives, report:

That an examination under the law of this State which points out the manner of contesting elections, having been gone into by the respective parties, they agreed that their rights to a seat in the House should be decided by the depositions taken under the law in the county of Peoria, and such other written documents as are reported herewith.

A majority of the committee did not feel it their duty, in weighing the evidence before them, to confine themselves alone to those rigid rules which control the opinions of our judicial tribunals in the decision of pecuniary civil rights.

Legal technicalities often carry with them important results, but the majority of your committee did not feel bound to make justice bend to

nice distinctions, nor to sacrifice the rights of a majority because some unwieldy formality has *not* been strictly complied with. The evidence produced is in some respects loose, if the acumen of lawyers is alone to be consulted; but in their deliberations the committee were governed by the mandates of justice, and applied those larger and more sensible influences to the decision of a question which involves rights more important than any which the respective claimants can present, if their individual interests are alone to be consulted.

It is not to be supposed that in a contested election, where the evidence is obtained upon the very theatre of dispute, that the clearest and most indisputable of all evidence can be furnished. Individuals cannot be compelled to disclose any facts which will render them amenable to the laws enacted to prevent improper voting. Party influences are made active, and self-preservation stimulates the guilty by every artifice to avoid detection. Hence it becomes exceedingly difficult to square decisions in a case like the present by the unbending rules of evidence, furnished by a Starkie, a Phillips, or a Peake.

Mr. Purple notified Mr. Phelps, on the 31st of August last, of his intention to contest the right of the latter to a seat in this House; which notice was carried out by an examination before three justices of the peace in Peoria county, pursuant to law in that behalf. The result of that examination is reported herewith.

It appears that the sitting member, at the election in August, had a majority of seven votes over the claimant.

In the scrutiny adopted by the committee, it appears that there were twenty-three illegal votes cast. Of these fifteen were for Mr. Phelps, and eight for Mr. Purple. There were two other votes, about the rejection of which the committee were equally divided.

Two individuals, Enos Rowland and Lewis Lecroy, came to the polls in Peoria precinct, took the oath prescribed by the law, and wished to have their votes recorded for Mr. Purple. Two of the judges of election, making a majority of the board, rejected these two voters of their mere motion, without any evidence impugning the right of the individuals claiming the franchise. A majority of the committee are of opinion that these votes should be counted for Mr. Purple.

Without enlarging upon the reasons for this opinion, your committee would only suggest that it would be unwise and dangerous, to permit judges of election from mere caprice, or any worse reason to reject votes, as by such means it would be in their power to control all elections of the people.

It was agreed between Messrs. Purple and Phelps, that each should vote for the other. Mr. Purple carried his part of the agreement into effect; but Mr. Phelps, from illness, was unable to attend the polls, and consequently could not vote for Mr. Purple. It is proposed now, that the vote of Mr. Purple should not be counted for Mr. Phelps, and although the latter gentleman assents to this proposition, your committee do not feel authorized to reject the vote of Mr. Purple, his legal right to cast the vote not being questioned.

Majority of votes on the poll books for Mr. Phelps, seven.

Two votes for Purple improperly rejected by the judges,				2

Majority of Mr. Purple over Mr. Phelps, two, not including the two votes about which the committee are equally divided.

A majority of your committee recommend, that William J. Phelps be not considered as having a right to sit and vote in this House, and that Norman H. Purple be declared to be the representative elect from the county of Peoria, and that he take his seat in the House in lieu and stead of the said William J. Phelps, and recommend the adoption of the following resolution:

Resolved, That Norman H. Purple, having received a majority of all the legal votes in the county of Peoria, at the late August election, for Representative, be declared the sitting member in this House from said county.

Which was read.

Mr. Henderson demanded a call of the House, which having proceeded for some time, was,

On motion of Mr. Lincoln,

Dispensed with.

Mr. Hardin, from the select committee appointed to investigate the claims of N. H. Purple to a seat in the House as a Representative from the county of Peoria, made a minority report, as follows, viz:

The undersigned, being a minority of the Select Committee, to which was referred the petition of N. H. Purple contesting the right of W. J. Phelps to hold a seat in this house, as a Representative from the county of Peoria, beg leave to report:

That they have given the subject a most careful and thorough consideration, and regret that, in deciding upon the qualifications of persons to vote, as well as in the conclusions adopted by the majority of the committee, they are constrained wholly to differ with them.

The only testimony which has been submitted to the committee is a bundle of depositions, which we feel constrained to say, are of the most imperfect, loose and unsatisfactory description; and far the largest portion of the depositions are such as would be wholly rejected as evidence in any court of Justice.

According to the understanding of the testimony, entertained by the minority, there are but about eleven votes proved to be illegal, by primary and positive evidence, (by which we mean, the best evidence which could be produced to prove the fact desired.) Of these eleven votes, five voted for Phelps, and six for Purple. Thus, if we are governed by the same rules of law which prevail in courts of justice, the right of Phelps to retain his seat cannot, in our opinion for a moment, be questioned.

The remaining testimony, which is by far the largest portion, consists of hearsay or secondary evidence, being statements which witnesses say

they heard made since, and in many instances, weeks, months and years previous to the August election, by the voters themselves, or their fathers, brothers, and brothers-in-law; and also, recollections of family records. And this hearsay testimony is presented in a still more questionable position from the facts which appear in many of the depositions that the voters themselves, or their fathers, brothers, brothers-in-law and the family records were in Peoria county, and of course could have been brought before the persons taking the depositions, and thus enabled the parties to have presented the best evidence to prove the facts desired. Evidence of this description is not received in courts where the testimony of the person who made the statement can be had, and we think it could not be received in this case, for the same reasons which have induced courts to reject it. If this character of testimony is admitted, it will lead to the greatest uncertainty in the investigation, and will open a door for frauds of the most startling description. If such testimony is to be admitted, the seat of no member in this body will be secure, although in truth he may be fairly and honestly elected. And in contested elections, the effort will be, not to prove the largest number of illegal votes by positive testimony, but to hunt up the greatest number of rumors, as it is generally easier to prove five men to be illegal voters by hearsay, than one man by positive proof. These objections exist to the testimony taken on both sides, and in our opinion should induce the House to reject every deposition when it appears that better evidence to prove the desired fact, could be obtained than that which is given.]

But the minority of the committee are of the opinion, that if the whole testimony is taken together, and the same rule of construction equally applied, that it will clearly show that the sitting member, Mr. Phelps, is entitled to his seat.

We will briefly advert to the facts which have led us to this conclusion:

Taking the whole testimony together, the committee came to the conclusion that the votes of the following named persons were good, some of whom voted on either side, and we presume their right to vote will not be again disputed, as there was no diversity of opinion, as it respects them in the committee, to wit:

John Hogg, Jr., Isaac Underhill, William C. Terry, Isaac Clayton, Michael R. Hughes, Charles B. Benson, David G. Lisk.

The following named persons who voted for Phelps were decided to be illegal voters by at least seven of the committee, whose right to vote, if hearsay and secondary evidence is admitted, will most probably not be contended for, to wit:

Theodore Adams, Quincy A. Jordan, R. Burlingame, Benjamin H. Bauvard, George Hillman, Myron M. Lisk, Hiram Robinson, Dexter Hood, Allen Cromlet, Matthew Ellis.

The following named persons, who voted for Mr. Purple were decided by at least seven of the committee, to be illegal voters, taking all the testimony together, and it is presumed it will not be alleged that they are legal voters if all the testimony is admitted, to wit:

George Almarode, Peter Decker, John Davis, Samuel Carroll, William Young, Thomas Richardson, James Murden, William Whiting, John Hillhouse, or Hillis,

The right of the following named persons to vote, (who voted for Phelps) could not be agreed on in the committee, to wit:

Noble M. Farrington, William Adkins, George Winklu, Christopher Winklu, Horace Adams, Harris Whitaker, Robert Smith, John Martin.

The right of the following named persons to vote, (who voted for Purple) could not be agreed on in the committee, to wit:

James Temple, George W. Patton,
William H. Fessenden, Charles H. Freeman.

The committee could not agree whether Enos Rowland, and Lewis Lecroy, whose votes were rejected by the judges of the election, were legal voters, and who would have voted for Purple, if they had been permitted to vote.

It is in reference to these two last lists of voters' names, that the attention of the House should be particularly directed, as the contest to the seat must be decided with reference to these voters.

It appears from the poll books, which were admitted to be evidence by consent, that at the August election, W. J. Phelps received 724 votes, and N. H. Purple received 717 votes, leaving Phelps a majority of seven. The number of illegal votes admitted to be proved by taking hearsay and positive proof, is ten for Phelps and nine for Purple, which still leaves Phelps a majority of six. In the columns of disputed votes, the House must find illegal votes enough for Phelps, and legal votes for Purple to change this result.

A few suggestions will be offered with reference to the votes of some of the persons who are declared to be illegal voters by a majority of the committee:

Two persons voted for Phelps, whose votes were thus rejected, are George and Christopher Winklu. It is proved they have lived in the State more than three years, and there is no dispute as to their age. One of them resided, as is proved, for five months previous to the August election in Peoria county, and the other for two or three months previous to that election, and they were residing there at the election, and at the time of taking the depositions; yet, because it was proved that they had formerly resided with their father in Tazewell county, and each owned a lot of land there, the majority of the committee come to the sage conclusion that they had no right to vote in Peoria county.

It is a principle of law, as well as of justice and common sense, that every man's vote on the poll book is to be considered to be good until the contrary appears from evidence. Apply this principle to the case of Noble M. Farrington, who was likewise decided to be an illegal voter for Phelps by the majority of the committee. Waller Stuart, the only witness who speaks of Farrington, says that he came on board the steamboat Tennessee, at St. Louis, in March last, and came up the Illinois river to Peoria; and Farrington told witness that *it was the first trip he had ever made up said river*. Witness does not know where Farrington resided before he came on board at St. Louis; and it is not shown but that he had resided in Peoria several years, and had come to the State by land. This being the whole testimony, the majority of the committee decided that he was an illegal voter. The grounds upon which they arrived at that conclusion must have been, that to entitle a man to vote he

must have made a trip up the Illinois river at least six months previous to the August election. It is to be hoped that the House will not sanction this qualification as it will be a great inconvenience to many of the citizens of this State to take the necessary trip up the Illinois river to qualify them for voters.

The vote of Wm. Adkins was rejected, as it appears to some of the undersigned, on evidence equally as unsatisfactory as that relative to Farrington.

The vote of Robert Smith was also rejected. The only witness who speaks of Smith, is his father, who testifies that he was married, as he thinks, in 1817, but does not recollect whether his son is 21 years of age or not. He does not believe his son voted as he told him he had not, and was told so by others. He knew one other Robert Smith in Peoria county and had heard of several others in the county. It appears from the poll books that two Robert Smiths voted in Peoria county, but there was no evidence to show that this was one of them. Besides, there was no evidence that he was a minor if he had voted. In the absence, then, of all certain proof that this Robert Smith either voted or was a minor, his vote is declared by the majority of the committee to be illegal, and is stricken from Phelps' vote.

John Martin's vote, who voted for Phelps, was declared by the majority of the committee to be illegal. One witness, Jesse Lee, states that Martin's father stated to him that his son, John Martin, would be 21 in November 1840, and that then he intended to make him a deed for a quarter section of land. James Clark, another witness, says that he has seen the family record of John Martin's father, in the family bible, and that record states that John Martin was born at Argyle, November 4, 1818; and he also states that John Martin's father told him that John Martin was born 4th of November, 1818. This is all the testimony about that voter. The testimony of the witnesses in relation to the statements of the father are flatly contradictory, whilst the family record coincides with the statement of one witness, and proves John Martin to be 21 years of age; yet the majority of the committee most strangely decide this to be an illegal vote.

The case of Horace Adams, a voter for Phelps, is another case of contradictory hearsay testimony, where the majority likewise decide him to be an illegal voter.

The attention of the House is called to the votes of George W. Patton and James Temple, who voted for Purple, and who were decided by the majority to be legal voters. Patton had been on the steamboat Tennessee for a year; and if the same rule of evidence is applied to him which was applied by the majority of the committee in some of the cases decided to be illegal, his vote must also be declared to be illegal. As for Temple, it is clearly proved that he had not his residence in Peoria county at the time of the election, and that he had been at work and had resided in St. Louis, Missouri, since last February, which would of course disqualify him from being a voter.

In the case of John Davis, the witness who impeaches his vote—says that Davis told him he had voted the Whig ticket in August. The poll-books show this to be a mistake, and that he voted for Purple. It is therefore a bad vote to be taken from Purple, and not from Phelps.

The votes of Enos Rowland and Lewis Lacroy were rejected by the judges of the election, who would have voted for Purple. These votes are declared good by the majority of the committee, and added to the number given to Mr. Purple. The reasons why the judges did not think Lacroy's vote good, are not given; but we think there is no doubt but there were good reasons for rejecting Rowland's vote. He stated to one witness that his wife was then living in Indiana, and that he had resided off and on in the State two years; that he had come down the Illinois river the *morning of the day of the election* in the steamboat Tennessee, and if he could get work he intended to stay in the county. He left, however, as witness thinks, the next day after the election, and has not been back to Peoria since. It is true, Rowland offered, and we believe it is in proof, did take the oath prescribed by the law as to his residence, &c.; but if he did so, and the facts stated by the other witnesses are true, *we cannot but believe that he perjured himself.* He had not been in the county twenty hours, and had no intention or expectation of remaining there, unless he got work, which he did not, and left next day; thus showing clearly that he was a transient person, probably in search of work, without any residence in the county of Peoria. And if he had not stated the truth under oath, the law does not require either the judges of election, or this House, to believe his oath. It would seem that *coming down the Illinois river that morning* had qualified Rowland to vote, whilst Farrington's *coming up the Illinois river* five months previous, had disqualified him. *This case shows truly the great difference between going up and down stream.*

The only other voters, whose right to vote we would in this Report ask the attention of this House to, are William H. Fessenden and Charles H. Freeman, who voted for Mr. Purple, and whose votes are decided to be legal by the majority of the committee.

They came to Illinois in the summer of 1839, from Massachusetts, where they left their families, and bought land; and one of them, Fessenden, commenced building a house in Peoria county. They returned to Massachusetts the fall of 1839, with the intention of moving to this State with their families in the spring of 1840. They did move to Peoria from Massachusetts, with their families, and reached Peoria in May or June last. One of them, Fessenden, told a witness that he had voted in Massachusetts at the November election in 1839. Two witnesses who know them both, positively swear that these men were not residents of the State of Illinois for six months previous to the August election, and there is no testimony whatever to contradict them. And the fact of Fessenden voting in Massachusetts in November, 1839, clearly shows his understanding of their place of residence. If these men are entitled to vote, then it must be, that the fact of their buying a piece of land, and beginning to build a house on it, qualifies them to vote. Whilst on the other hand, although it is proved that George and Christopher Winkler resided in Peoria at the time of the election, yet, because they owned land in Tazewell county, they are disqualified from voting in Peoria. This would seem to be deciding that a man has a right to vote in the county where he has owned land for six months, and no right to vote elsewhere. What is this but a revival in effect of the odious and anti-

democratic doctrine of a *freehold property qualification*, which we had hoped was banished from the West forever.

If, then, we depart from the ordinary rules of evidence, and take all the testimony contained in the depositions, subtracting from both Phelps and Purple the votes which are proved to be illegal by hearsay and secondary evidence, the undersigned conscientiously believe that it will not make a difference of two votes either way in the majority of seven, which it appears from the poll-books Phelps received over Purple.

It has been gratifying to the undersigned that nothing has appeared in the depositions, or from any other quarter, during the investigation, which would even look like imputing fraud or unfairness to either Mr. Phelps or Mr. Purple. Nothing has appeared to us but gentlemanly and honorable conduct.

It is perhaps proper here to state, that it was agreed before the committee, that previous to the election, these gentlemen had agreed to vote for each other, and that Mr. Purple had accordingly voted for Mr. Phelps, but that Mr. Phelps, on the day of the election, and for some time previous had been confined to his bed with illness, and therefore had not voted for Purple. Mr. Phelps therefore stated to the committee, that he did not claim the vote of Mr. Purple for himself. This conduct, on his part, is honorable, but it does not appear to us that he or any other person, or even this House, possess the right to strike a legal voter's name from the poll-book. If, however, it should be the opinion of this House, that Mr. Phelps is entitled to his seat by a single vote, we then think it would be his duty, as an honorable man, to resign his place, and let the seat be filled by another election. To admit any other principle than this, would be to permit a member elect of this House, from honorable or mercenary motives, to give away or sell out his seat in this House to one who was not duly elected by a majority of the legal voters of his county.

In the absence, then, of all unfairness, and of all suspicion of fraud in the management of the election, and the sitting member, Mr. Phelps, having received the largest number of votes, as appears by the poll-book, and having honestly obtained his certificate of election from the proper officer, the fullest and most indubitable testimony should be required by this House, before they oust him out of his seat. Our Government is one which is, and we trust ever will continue to be, governed by public opinion. The acts of Legislative bodies should not only be fair and honest, but the motives of the Legislators should be above suspicion. If in a case like the one under consideration, where the right of the sitting member to retain his seat can only be questioned by a resort to hearsay and most doubtful testimony, will it not be setting a precedent to an unprincipled majority in some future Legislature, upon the same grounds to supplant an obnoxious member, and supply his seat with a pliant political partizan, or a subservient personal friend?

We are assembled here as the representative agents and political servants of the People—not as their masters or dictators. No man has a seat in this Hall in his own right, or in virtue of his own act; but each one is here as the selected agent of a majority of his constituents. It is a fundamental principle in our Democratic Republican institutions, that *the majority shall rule, and their will be law*. Let us not, then, lightly set

aside—and upon loose and uncertain testimony, declare unworthy of credit—the poll-books of our elections, which are the exclusive testimony of the will of the majority. We fully acknowledge the truth that spurious and illegal votes should be rejected; but let us not in our anxiety to detect illegal votes, and to do equity between the parties, give occasion to the enemies of popular rights to say, or to the friends of true liberty to suspect, that we, the Representatives of a free People, from whose decision there is no appeal, make the will of a majority of a county which should govern in the selection of their Representative, yield to the will of a majority of this House, and thus trample, rough-shod, under our feet, the laws of the land, the Constitution of our State, which we have sworn to support, and the will of the People of Peoria, whose right it is in this case to rule, and whose wishes should not be disregarded.

In a contest of this character, the personal feelings of members should not be permitted to exercise the least influence. The claims of Mr. Purple or Mr. Phelps, are but as spars to the mighty vessel which bears them, when compared with the great principle which is involved in this case—the right of the People to be represented by their legally selected agents. It is for them, and with reference to their rights, we must act, as legislators governed by liberal and enlightened views, and foreseeing the consequences of our acts, and as jurors sworn to do justice in the case.

In concluding this Report, inasmuch as there is so wide a difference of opinion between the undersigned and the majority of the committee, and as the committee were as nearly equally divided as their number will admit, we earnestly request each member of this House to examine the depositions, and to give the case of each voter, whose right to vote is in dispute between the majority and minority of the committee a careful and thorough investigation; not doubting but that this House, if its members make that investigation, will come to the conclusion which has been arrived at by the undersigned—that from all which appears in the poll-books and depositions, *William J. Phelps* is the legally elected Representative of the County of Peoria.

PETER MENARD, Jr.
A. GRIDLEY,
WM. H. HENDERSON.

Which was read, and,

On motion of Mr. Lincoln,

Said reports were referred to a committee of the Whole House.

Mr. Peck moved that the House now resolve itself into a Committee of the Whole on the subject of the reports.

Mr. Webb moved to re-consider the vote on referring the foregoing reports to a committee of the Whole House; which was not agreed to.

When the House resolved itself into a Committee of the Whole; Mr. Murphy of Cook in the Chair, on the matter of the contested election of Peoria county, and after some time spent therein, they rose, reported progress, and obtained leave to sit again.

A message from the Senate by Mr. Berry, their Assistant Secretary:

Mr. Speaker: I am directed by the Senate to inform the House of Representatives that they have adopted the following resolution:

Resolved by the Senate, the House of Representatives concurring herein, That there shall be elected at the present session of the General Assembly, three competent persons, well skilled in the law, to revise and condense all the laws of this State of a general nature, that were in force at the commencement of this session of the General Assembly, and that they be required to present the same to this General Assembly, before the end of this present session, for their consideration and approval; in the adoption of which resolution, they ask the concurrence of the House of Representatives.

The House adjourned to 2 o'clock, P. M.

TWO O'CLOCK, P. M.

House met pursuant to adjournment.

Mr. Kitchell moved to suspend the rules of the House to enable him to make a report from the Judiciary committee; which was not agreed to.

Mr. Murphy of Perry demanded a call of the House; proceedings under which having continued for some time, were,

On motion of Mr. Kitchell,

Suspended.

Mr. Kitchell, on leave, introduced the following report from the Judiciary committee:

The committee on the Judiciary, to whom was referred a resolution of the House, directing them to enquire and report "whether the eleventh or twelfth General Assembly should have convened under the late Proclamation of his Excellency, the Governor of Illinois; and whether, if the Legislature, as at present organized, be legal and constitutional, it should not adjourn *sine die*, on some day previous to the first Monday in December next, and be called a special session; and the regular session of the twelfth General Assembly commence on the said first Monday in December, agreeable to our State Constitution;" Report that they have considered the subjects of the foregoing resolution submitted to them, and are of opinion that the present members now assembled are constitutionally the first session of the twelfth General Assembly of the State of Illinois, and are properly convened under the late Proclamation of the Governor—that the present Assembly being called at an irregular time under the provision of the 9th section of the 3d article of our Constitution, shall be called a special session, and recommend that it adjourn without day on Saturday, the fifth of the present month.

Mr. Dougherty, from a minority of the same committee presented the following report:

The minority of the committee on the Judiciary, to whom was referred the following resolution, to-wit:

Resolved, That the committee on the Judiciary be instructed to enquire whether the eleventh or the twelfth General Assembly should have convened under the late proclamation of his Excellency the Governor of Illinois; and whether if the Legislature as at present organized be legal

and constitutional, it should not adjourn *sine die*, on some day previous to the 1st Monday in December next, and be called a special session; and the regular session of the twelfth General Assembly commence its session on said first Monday in December agreeable to our State Constitution; and that said committee make report thereon at the earliest practicable period.

1st. That this is the 12th and not the 11th General Assembly of the State of Illinois, each assembly being elected for two years on the first Monday of August, and the time of their appointment or election, not being in the Constitution continued beyond the time of the election of their successors; the term of service of the members who composed the 11th General Assembly expired on the first Monday of August, 1840, and the term of the members of the 12th General Assembly, commenced on the day after the said election, consequently any meeting of the Legislature after the election of members in 1840, must be of the 12th General Assembly.

Having arrived at this conclusion, your committee think the same a sufficient answer to the interrogatories propounded to them in the above resolution, except the latter two, to-wit: whether this should not be called a special session, and if so, adjourn at some day previous to the 1st Monday of December, 1840. Your committee propose considering the foregoing last two propositions, as admitting of an answer, and will consider them together.

The Constitution, Article 2d, Section 24th provides, That "the first General Assembly shall *commence* on the first Monday of October next, and forever thereafter the General Assembly shall meet on the first Monday in December next, ensuing the election of the members thereof, and at no other period, unless as provided by this Constitution." Then it will be seen that in fixing the time for the General Assembly to meet, the convention declared that the General Assembly should meet on the first Monday of December next, ensuing the election of the members thereof, and at no other period unless as provided by this Constitution, thereby creating an alternative to be determined by subsequent provisions of the Constitution, whether the General Assembly should *meet* on the first Monday of December next, ensuing the election of the members thereof, or at some other day, subsequent or previous thereto. The only provision which the Constitution has made concerning this alternative thus fixed in the provision of the Constitution referred to, is the 9th Section, 3d Article of the Constitution which provides that, the Governor may, on extraordinary occasions, convene the General Assembly by proclamation, and shall state to them when assembled, the purpose for which they shall have been convened. The question then may be asked, when shall the Legislature meet. The answer is, on the first Monday of December next, ensuing the election of the members thereof, and at no other period, unless the Governor shall upon an extraordinary occasion convene them; for most certainly, the power reserved to the Governor to convene the General Assembly, was the alternative contemplated by the Convention, when in the 24th section of the 2d article, they provided that the General Assembly should meet, &c., unless as provided in this Constitution.

Then it follows, that there are two distinct periods provided in the Constitution, when the General Assembly may meet, either first in the absence of an extraordinary occasion, in the opinion of the Governor, on the first

Monday of December next, ensuing the election of the members thereof, or second, when an extraordinary occasion happens in the opinion of the Governor, at which time he may convene them by proclamation. There being in the Constitution no power conferred upon the Governor, to prolong the time of the meeting of the Legislature to a day subsequent to the first Monday of December next, ensuing the election of the members thereof, it is conceded that the Legislature must so meet, unless sooner called together by the Governor; but when so met, there is certainly no necessity why they should call it by the name of a *special session*, or adjourn previous to the first Monday of December, 1840, and in this we have the precedent of a former Legislature. The executive of this State, in the year 1824, convened the General Assembly on the 15th day of November, under the provisions of this Constitution, and we find that they considered it as merely a more early meeting of the General Assembly; on the Saturday evening previous to the first Monday of December, they adjourned; as on any other day of the session; & on Monday morning met pursuant to adjournment, thereby clearly showing that they deemed it but an earlier meeting of the General Assembly, resulting from an extraordinary occasion.

But, it may be said, when the General Assembly are called together by the proclamation of the Governor, they are so called to consider of, and provide for special causes of complaint and necessity; this is admitted, but does it follow that they either can transact no other business, except what is pointed out in the Governor's message, or that they *must* previous to the first Monday of December, have by law provided, for the necessity which brought them together, or that they are actually bound to provide for it at all? We conceive that when convened by the Governor, to provide or not to provide for the emergency, is solely in their discretion. The name special session is arbitrary at best, and is not known to the language of the Constitution, therefore, there can be no constitutional necessity for calling this a special session.

Again, should this General Assembly adjourn before the first Monday of December next, while they have business on hand, as for instance, the three prominent measures recommended by the Governor in his message, to wit: 1st, payment of wages to Thornton. 2d, correct the evils found in the elective franchise, and 3d, payment of interest on State debt. A question may arise as to the fact, whether we do not put it out of our power to provide at once for the grave and serious evils likely to grow out of the want of such provision; it is true that by a resolution passed after the meeting of the General Assembly, on the first Monday of December, we might probably take up for consideration unfinished business in the House at this session, but the very necessity determines its impropriety as without such resolution, that is simply by the act of adjournment *sine die*, unaided by a resolution of the subsequent General Assembly, we cannot avail ourselves of the business commenced and in progress at this session; again it may be matter of doubt, whether a resolution would enable us to put the business before the subsequent Legislature in the same state of forwardness as we left it in the last. But again, would not the members be entitled to double mileage to and from the Seat of Government, should we adjourn but for one minute before the first Monday of December next, your committee are of opinion that they would. On the other hand, the

construction your committee has to put upon the Constitution is not objectionable to any of the evil consequences enumerated above; and it is rather strange to your committee, that doubts as to the fact whether we should adjourn previous to the first Monday of December next or not, should now exist when the precedent above referred to, has been acquiesced in, for sixteen years, and no complaints heretofore made against consequences which resulted from the same. Your committee are therefore of opinion, that unless we are without business, there is no necessity for an adjournment previous to the first Monday of December next, and that this is a General Assembly of the State of Illinois.

Those who voted in the negative, are,

Messrs. Able, Archer, Beall, Crain, Dougherty, Francis, Hardin, Henderson, Hull, Leary, Lincoln, McClernand, McDonald, McLean, Minshall, Murphy of Perry, Odam, Parkinson, Phelps, Ross, Thornton, Troy, Turney, Webb, Woodson, and Mr. Speaker—26.

Mr. Ormsbee from the committee on Public Expenditures, to which was referred a resolution, in relation to printing reports, &c., reported as follows, to wit:

The committee on public accounts and expenditures to whom was referred a resolution, requiring "that no report or other communication presented to this House, shall be entered upon the journals thereof, and printed, except the Auditors and Treasurer's reports, and the reports of standing and select committees, unless by a special order of the House," &c., beg leave to report:

That they have given said resolution the careful consideration which its importance demands, viewing the object of its reference to them as one peculiar to a desire for retrenchment in the expenditure of the public moneys, and submit the result of their consideration, which is as follows:

The committee highly appreciate the manifest motion of the resolution, and were it clear to them that its adoption by the House would obviate an unnecessary accumulation of matter upon its journals, and thereby save in the expenditures of its public printing, it would be an act of unfeigned pleasure on their part to report it back to the House with a desire for its immediate adoption. But the committee on a full examination of the ground over which the resolution is calculated to extend find, that it would exclude from the journals communications to the House, which, if made, are required by the Constitution of the State, to be recorded and printed as well as those, the recording and printing of which has the sanction of common usage in all past time. It is a resolution which if adopted, excludes from the journals, minority protests against acts or resolutions by the majority which might be in the belief of the minority, injurious to individuals or the public. Notwithstanding the right of such a protest is secured by the Constitution to any two members of the House, it forbids a constitutional record of objections emanating from the Council of Revision to bills which appear to them imperfect in their formation or otherwise objectionable as laws while it would give place to the labored efficiency of some committee called perhaps to consider the "magnificent importance" of navigating "Big Muddy" or some other subject of less importance than the one now under consideration. The common usage too, of those who have been before us as Legislators, has given place upon the journals for brief statements of the petitions and memorials of constituents while it has left for the files tedious and unimportant reports of committees. In fine, the committee cannot see it probable that the effect of retrenchment by the adoption of said resolution will be such as its

friends apparently expect, since it is obvious to them, that it would open the doors of frequent controversy on the tedious and unprofitable subject of "special order to print" until the minutes of the same would swell our journals beyond the amount of every communication of the session.

Nor can the committee understand how it is proper to avow by a previous resolution the quantity and kind of matter which shall fill the journals of the House, and thereby we should journalize and print, perhaps, the very matter which should have been excluded in the place of that more necessary and important; yet while the committee thus view the effects and impropriety of the resolution in question, they cannot but repeat their opinion of the good intent of the same, and add a hope that members will exercise that discrimination which will lead to a proper disposition of the various communications which may come before them, and that discretion which shall protect their journals from being unnecessarily burthened at the public expense. Therefore, the committee ask to be discharged from further consideration of said resolution, and would respectfully suggest the adoption of the following:

Resolved, That the Clerk of the House make up the journals and reports thereof, in separate and distinct volumes, and that the same be so printed, and that whenever an objection shall be made by any two members of the House, to any report or other communication being entered at length upon the journals or books of reports for printing, which is not required by the Constitution of the State, to form a part of the printed records or journals, then the same shall be excluded and filed by said Clerk, (who shall note the fact in his minutes,) unless otherwise ordered by the House.

On motion of Mr. Logan,

Mr. Bissell moved to dispense with the rules of the House, and take up for consideration the message from the Senate, which related to adjournment *sine die*; which was lost.

During the pendency of the call, the Speaker laid before the House a communication from W. F. Thornton, Canal Commissioner, which was read and laid on the table.

SPRINGFIELD, Dec. 4, 1840.

To the House of Representatives:

GENTLEMEN: From verbal reports of yesterday's proceedings and debates, I learn that it was proposed in your honorable body to institute an enquiry into all the acts and doings of the Board of Commissioners of the Illinois and Michigan Canal. Having had the honor to preside over that Board since the commencement of its operations, and confidently believing that its various, arduous, and unusually responsible duties have been discharged with irreproachable fidelity to the State, I respectfully and earnestly request such equitable but searching investigation, that while it insures justice to the people, will not, by needless delay, inflict injury upon its agents. The books and papers of the office can be transferred to this city as early as the 20th inst., after which time, the Board will be fully prepared to furnish any information necessary to the most rigid scrutiny.

Respectfully,

Gentlemen,

Your ob't serv't.,

W. F. THORNTON.

The Speaker laid before the House a communication from the Fund Commissioner:

OFFICE OF THE FUND COMMISSIONER,
December 3, 1840. }

To the Honorable the SPEAKER

of the House of Representatives:

In obedience to a resolution of your House, adopted on yesterday, calling for the amount of interest due on our internal improvement debt, on the first of January next, for the payment of which no means are provided; and also the cost and quantity of railroad-iron now in the United States, and where deposited, I have the honor to say that these enquiries were pretty fully answered in my report which was read in your House on yesterday, after this resolution was adopted to which I beg leave to refer you. Permit me again to say, however, that State bonds sold on

account of bank stock in the State of Illinois, amounts to	\$1,765,000
Ditto in Bank of Illinois	900,000

Total in the two Banks	\$2,665,000
Ditto on account of railroad, river, and other improvements	3,187,000

Total	\$5,852,000
-------	-------------

The interest on \$5,852,000 semi-annually, on the 1st of January, and July of each year is \$175,560.

The above amount will therefore be due on the 1st January, 1841.

Gen. Rawlings, and Col. Oakley last year contracted with Forman of London, through Messrs. Wright & Co. for \$500,000 worth of railroad iron, to be shipped to New Orleans. Said iron has been arriving at that port since last spring, but how much has arrived, I am not prepared to say. Obligated, myself, to be in New York at least four-fifths of my time since the adjournment of the Legislature, in attending to other business of the State, I was under the necessity of sending my brother, James W. Barrett, to New Orleans, to attend to the receiving and shipping of the iron to the State of Illinois; how much has been received at New Orleans, or how much has been shipped to the State of Illinois, I am not yet informed. Some shipments I know have been made to Meredosia, on the Illinois river, and to Alton, on the Mississippi river, and when my brother returns, which I hope will be in a few days, I shall be able to give you more specific information on the subject. If the iron be not laid on some of the roads of the State within three years from the date of its entry in the custom-house in New Orleans, it is subject to the same duty as iron imported by individuals, which I understand is \$30 per ton, or about seventy per cent. If the State should sell the iron, the same duty must be paid.

Therefore, would it not be well for the Legislature to continue one or two of the most important works, and lay the iron, if for no other object but to exempt it from enormous duty.

I have the honor to be,

Very respectfully,

Your ob't. serv't.,

RICH'D. F. BARRETT.

Fund Commissioner.

A message from the Governor, by Mr. Carlin, his private Secretary:

EXECUTIVE DEPARTMENT,

Springfield, Dec. 5, 1840.

To the Honorable the SPEAKER

of the House of Representatives:

SIR: In conformity to a resolution of the House of Representatives, addressed to me a few days since, calling for information in relation to the first instalment of £10,000 sterling, received by the Hon. R. M. Young, upon a contract with Messrs. John Wright & Co., of London, for the sale of \$1,000,000 of Illinois and Michigan canal stock.

I have the honor to make the following reply: That I have not in my possession, the facts to enable me to answer specifically, all the enquiries contained in said resolution. During the month of January last, I was informed by letter from the United States Bank, that the sum of \$56,444 44 had been placed on deposit in said bank to the credit of the Hon. R. M. Young. This sum of course includes the proceeds, exchange, and premiums realized from the £10,000 sterling, and indeed, is more than could possibly arise from that source. You will perceive the above sum was deposited on Judge Young's own account. In answer to the enquiries, "whether said first instalment of £10,000 sterling, and the interest, exchange, and premium which have been received from the same have ever been paid to the Canal Commissioners, and if not, the reasons why the same has not been done; also, whether the agents of the State, who had the charge of the said sum of money, refused to pay over the same to the Canal Commissioners, when requested by them; and also, the reason why the said sum of money was not placed at the disposal of the Canal Commissioners as soon as the same was received." I have to say that the proceeds of the said £10,000 sterling has not been paid to the Canal Commissioners, because the contract upon which the money was advanced by Messrs. Wright & Co. was conditional, and was not consented to and confirmed by me, until the 25th of June last, and until that time could not be used for canal purposes, which was subsequent to Gen. Thornton's demand for the money to apply to the payment of the July interest; it was therefore proper to withhold it in readiness to be refunded to Messrs. Wright & Co., in case the contract should not be confirmed.

Consequently the agents declined to pay over the money to the Canal Commissioners when requested by the President of the Board.

I have the honor to be,

Sir, your most ob't serv't.

THOS. CARLIN.

Which was referred to the committee on Finance.

On motion of Mr. Peck,

Resolved, That the Sergeant-at-Arms be instructed to compel the attendance of members absent without leave, and bring them in presence of this House, and that he be authorized for that purpose to call to his aid a sufficient number of persons to enable him to enforce a compliance with this command.

On motion of Mr. English,

Further proceedings under a call of the House were dispensed with.

The message from the Senate having for its object the adjournment of that body *sine die* on Saturday the 5th inst., was taken up for consideration, and on being read,

Mr. Peck demanded the previous question, which was decided in the affirmative by yeas and nays as follows:

Those who voted in the affirmative, are,

Messrs. Able, Baldwin, Barnett, Bentley, Bissell, Blackman, Bussy, Carpenter, Courtright, Crain, Dodge, Dollins, Dunlap, English, Green, Hankins, Hicks, Humphrey, Kelly, Kitchell, Laughlin, Leary, Lester, Logan, McClernand, McClurken, McDonald, McGinnis, Marshall, Moore, Murphy of Cook, Murphy of Perry, Odam, Olds, Oliver, Ormsbee, Parsons, Peck, Ross, Scott, Shepley, Trumbull, Turney, Waters, Wheeler, Wilson, Wood, and Mr. Speaker—48.

Those who voted in the negative, are,

Messrs. Archer, Bailey, Beall, Bradford, Denny, Dougherty, Drummond, Gillespie, Gridley, Lincoln, McLean, Phelps, and Reynolds—13.

The question being put on the passage of the resolution,

It was decided in the affirmative by yeas and nays as follows:

Those who voted in the affirmative, are,

Messrs. Able, Baldwin, Barnett, Bentley, Bissell, Blackman, Bussy, Carpenter, Courtright, Crain, Dodge, Dollins, Dunlap, English, Green, Hankins, Hicks, Humphrey, Kelly, Kitchell, Laughlin, Leary, Lester, Logan, McClernand, McClurken, McDonald, McGinnis, Marshall, Moore, Murphy of Cook, Murphy of Perry, Odam, Olds, Ormsbee, Parsons, Peck, Ross, Scott, Shepley, Trumbull, Turney, Waters, Wheeler, Wilson, Wood—46.

Those who voted in the negative, are,

Messrs. Archer, Bailey, Beall, Bradford, Denny, Dougherty, Drummond, Gillespie, Gridley, Lincoln, McLean, Oliver, Phelps, Reynolds, and Mr. Speaker—15.

The Speaker then, in conformity to the above resolution, declared the House of Representatives adjourned without day.

Mr. Speaker: I am directed by the Senate to inform the House of Representatives, that they have passed bills of the following titles, to wit:

“An act to vacate the town plat of Livingston;”

“An act to vacate the part of a plat of Vermilionville in La Salle county.”

They have also adopted the following resolution, viz:

Resolved by the Senate, the House of Representatives concurring herein, That the joint rules of the two Houses at their last session, be adopted for the government of the two Houses, until altered or amended.”

In the adoption of which, they ask the concurrence of the House of Representatives.

Mr. Kelly offered for adoption the following preamble and resolutions:

Whereas, it becomes our duty to sustain the good faith and credit of the State, to make provision for the interest on the State debt; and to do this, it is also our duty to obtain all the information in our power respecting this subject.

And whereas, it would be little less than criminal negligence with the evils of hasty Legislation still before our eyes, to rush on and pledge still deeper the faith of the State on a mere declaration, that a large amount of interest is due without having the exact amount of interest, and whether such amount includes interest as well upon those bonds for which the State has received payment, as those for which it has never yet received any consideration, and which are believed not to have been sold in accordance with the special powers vested in the agents of the State by the law authorizing their sale; Therefore,

Resolved, That the Fund Commissioner be requested to furnish this House as speedily as possible with the following information, to wit:

The amount of all State bonds heretofore sold by the agents of the State, and by whom and to whom sold.

Also, the amount of bonds now hypothecated, and with whom, and by what agents they were hypothecated, and how much is due, and to be paid to each, in order to redeem such bonds from hypothecation, and when such payment must be made to save such bonds from forfeiture.

Also, the amount received by the agents of the State from each purchaser of bonds, together with the names of the purchasers.

Also, the amount still due and unpaid by any purchaser, together with the name of such purchaser.

Also, the names of the present holders of bonds, with the amount held by each, being the persons to whom interest is payable, the total amount of interest to be paid in January next, without any deduction for bonds sold without consideration.

Also, the nett amount of interest to be paid in January, after deducting the amounts of bonds for which the State has not received consideration, or any consideration in part.

Mr. Dougherty moved to amend by striking out all after the words "to wit" in the third line of the resolution, and inserting the following :

"How many bonds have been sold, for which this State has not received pay, and also to whom sold, and whether he knows who are now the holders of bonds so sold, and if so, who they are.

Mr. Dodge moved to lay the resolution and proposed amendment on the table; which was not agreed to.

When the proposed amendment was agreed to, and the resolution as amended was adopted.

On motion of Mr. Lincoln,

The rules of the House were suspended, and the bill for "An act to provide for the payment of interest upon the public debt;" was taken up for consideration.

Mr. Lincoln, proposed to amend the bill by inserting into the 9th line, at the end of the word "next" the words following, to wit :

"And also, sufficient to pay freights, duty and other necessary charges upon railroad iron, which has been received, and to be received under contracts heretofore made, and also sufficient to pay the necessary charges of the prosecution of certain suits prosecuting and to be prosecuted

on behalf of this State, in the State of New York. And if it shall become necessary to prevent a forfeiture of the bonds so hypothecated, said Fund Commissioner is hereby empowered to re-hypothecate said bonds for that purpose, and for no other whatever."

Also, to amend said bill further, by adding the following proviso at the end of the bill, viz:

"*And provided further*, That the Fund Commissioner shall not be authorized to pay interest upon any bonds sold for which a consideration has not been received by the State whenever such bonds shall be found in the hands, custody, power or possession of the original purchasers or contracting powers."

OFFICE OF THE FUND COMMISSIONER,
December 8th, 1840. }

To the Honorable the SPEAKER

of the House of Representatives:

In reply to a resolution of your House, passed this morning, asking "how many bonds have been sold for which this State has received no pay, and also to whom sold, and whether he knows who are now the holders of bonds thus sold, and if so, who they are?"

I have the honor to state that the following bonds have been sold and paid for, to wit:

To State Bank, appropriated to Bank stock,	-	-	\$1,765,000
" Bank of Illinois, do do	-	-	900,000
" Irvine & Beers, appropriated to internal improvement stock			1,000,000
" N. Biddle, do do	do.	do.	1,000,000
" Hall & Hudson, do do	do.	do.	100,000
" Boorman & Johnson, do do	do.	do.	100,000
" Lieut. Levy, do do	do.	do.	4,000
" January & Dunlap, do do	do.	do.	300,000
" M. B. Sherwood, do do	do.	do.	50,000
			<hr/>
			\$5,219,000

Interest on the same, due 1st January, 1841, \$156,570.

The following bonds have been in part paid for only:

Bonds sold to A. H. Bangs, internal improvement stock	-	\$50,000
" " J. Delafield, do do	-	253,000
" " Erie county Bank, do do	-	100,000
" " Commercial Bank, do do	-	100,000
" " Bank of Commerce, do do	-	100,000

\$633,000

Interest due 1st January, 1841, on same, - \$18,990

Total amount of bonds, as per reports of 1st and 3d inst. \$5,852,000

Total amount of interest on all bonds sold, - 175,560

The Canal fund, by an act of the Legislature, passed 21st January, 1839, borrowed of the internal improvement fund, \$300,000; and 300 canal bonds were placed by the Governor in the hands of Gov. Reynolds, and Gen. Rawlings, to be sold to pay this loan. These bonds were sold to Mr. Delafield, also, upon which he has paid \$150,000. Whether the internal improvement fund is to look to the canal fund, or to Mr. Delafield, for the balance of this loan, I am not prepared to say; but if we could get it from either, it would go far towards paying our January interest. From Mr. Delafield, last summer, I received about \$21,000 in protested drafts of the City Bank of Buffalo, in the Tonawanda Bank. Mr. Delafield had sold 20 of these bonds to said Bank; and by the advice of our counsel, I received them as a part of the proceeds, believing that the Safety Fund of New York will ultimately be made liable for said drafts. The City Bank of Buffalo was a Safety Fund Bank, and soon after these drafts were given, failed.

A. H. Bangs has paid nothing on his purchase, and I fear, never will.

The three Buffalo Banks paid, in cash, at the time of the purchase of the 300 bonds, \$10,000 each. The Erie county Bank paid last winter, \$22,500 more, and I understand intends paying the balance of the debt in State scrip. The balance of her debt is, without interest, \$67,500. S. Daniels, Cashier of the Commercial Bank of Buffalo, paid me, a few weeks ago, about 57,000 in State scrip, leaving a balance due from him of about \$33,000. The Bank of Commerce has paid nothing but the first \$10,000 so that her balance is \$90,000.

In my reports of the 1st and 3d inst., stating the amount of interest due 1st January, 1841, to be \$175,560, included the interest on all these bonds.

Mr. Delafield told me that about 170 of the bonds which he bought had been deposited with the Comptroller of New York, as capital of the New York Banking Company; the balance he had sold with the exception of about 100, which he still had, and 200 which he had hypothecated in London, on which he had borrowed \$150,000, he now says all are sold, but to whom, I do not know.

The bonds which Bangs bought have been re-sold, and in whose hands they now are, I am not informed.

The 300 bonds sold to the Buffalo Banks, I believe, were all placed with the Comptroller, as capital stock of the respective Banks.

All these sales were made upon a credit, and are therefore illegal, according to the decision of the Chancellor of the State of New York; and all of the contracts can be seen in the printed reports of the last session of the Legislature.

The Commercial Bank of Buffalo has already paid more than is due on her contracts, as yet.

One instalment of \$22,500, is now due and unpaid, from the Erie county Bank. Three instalments, amounting to \$45,000, are now due and unpaid from the Bank of Commerce.

I have the honor to be,

Your ob't. serv't.,

RICH'D. F. BARRETT.

Fund Commissioner.

P. S.—My report of August, as far as relates to matters with which the Fund Commissioner is properly charged, and which is herewith submitted,

will give you a more specific account of the above debts, and bonds which were sold and not paid for, according to contract.

R. F. B., *Fund Com'r.*

Mr. Cavarly, from the committee on the Judiciary, to which was referred a resolution proposing to instruct the Fund Commissioner, reported as follows:

"That the law, as passed by this Legislature, authorizing the Fund Commissioner to pay the January interest upon the internal improvement debt is, in the opinion of your committee, sufficiently guarded in its provisions to protect the State against loss. By this law, the Fund Commissioner is required to pay no interest except that which will legally fall due on the first Monday in January, 1841." It is not conceived that the Fund Commissioner would prescribe for himself a rule of action at war with that which has been settled by repeated adjudications.

In leaving the subject with the Commissioner, we feel a confidence that he will be governed solely by the known and settled principles of adjudicated cases in the State where the contracts were made, and where they must be settled by their own judicial tribunals. Any instructions at variance with this, would place this Legislature, as well as the Fund Commissioner, in an attitude not very enviable, and from which neither could recede without discredit.

For these reasons, your committee deem it inexpedient to give any other or further instructions than those embraced in the law, and have instructed me to ask the House that they be discharged from the further consideration of the subject."

Mr. Kitchell moved to lay the report on the table, which was not agreed to; when the report was concurred in.

The House now resolved itself into a committee of the Whole House on this subject; and after some time spent therein, the committee rose, and through Mr. English, chairman of the committee, reported that they had had the same under consideration, had made some progress therein, and asked leave to sit again.

And whereas, it is believed that the sum thus deposited with the State of Illinois, will never be called for or reclaimed by the United States, but left in perpetual deposit, to be disposed of, and appropriated in such manner, and for such objects as the Legislature may adopt.

And whereas, the intellect of the rising generation is the property of the Republic, upon the right cultivation of which the destinies of our free government and liberal institutions, as well as the happiness of themselves and the world depend, and for which each State is, and should act on the conviction morally responsible to the Republic, and to the great family of man.

And whereas, the full development of the human mind cannot be attained in any other manner than by primary instruction to all, where the poor and obscure have an equal chance with those, who from the accident of fortune or family connexion, are able to seek instruction where it may be found; therefore,

Be it resolved by the General Assembly of the State of Illinois, That our Senators in Congress be instructed, and our Representatives be requested to use their best efforts to procure a donation from the United States to the State of Illinois, of the said sum thus deposited, in trust as a permanent fund for the support of primary common schools.

Resolved, That the State of Illinois disavows all and every contract or transaction of any agent or agents made or entered into in their name or names as agents of the State, not warranted by expressed authority given them by law.

But whilst repudiating all illegal and unauthorized contracts or transactions of their agents they expressly declare they will pay all moneys received, and pay a just compensation for any property accepted of by them, although such money or property may have been acquired without legal authority by their agent or agents.”

Resolved, That it is free from the entanglements, corruptions, and oppressions of the British credit system, which by the daring example of an avowed monarchist, was urged, and for a time, fastened upon it, and which, were it continued in the country, would plunge the laboring classes of our citizens into hopeless poverty and misery, and make them slaves to stock-jobbers and bankers.

Resolved, That the revenues of the General Government, collected of the people for its legitimate purposes, were once diverted therefrom, and made the basis of bank discounts, and the support of a mis-called American system, and that this diversion would have continued a curse upon the nation had it not been arrested, and the revenues secured within the proper sphere of the Government by the exercise of strict Republican principles.

Resolved, That a United States Bank, an institution which, according to the highest authority, is as verily unconstitutional, as it has proved hostile to liberty, is now no more, and that the unnatural and impolitic connection of the Government with the general pursuits of the citizen, the treasury with banks, is happily at an end.

Resolved, That the trans-Atlantic indebtedness of the General Government is paid, and millions of taxation removed from articles purchased and consumed by our citizens, and that the public domain, which was fast falling into the hands of speculators, for beggarly shadows of money, and which would soon have been lost forever from the Government is saved to a great extent, for poor, yet honest and industrious farmers to convert into freemen's homes.

Resolved, That Andrew Jackson and Martin Van Buren, following out the great principles of Democracy, through good report and through evil report, in the cabinet, in Congress, and in the country, have counselled, sustained and effected these great measures of reform and deliverance for the people and their Government.

"We have entire confidence in the capacity of the people of the United States for self-government.

Resolved, That the recent defeat of Mr. Van Buren, by a majority of more than one hundred and fifty thousand freemen, aided as he was by the immense patronage of the Government, affords an unerring indication of their desire to abandon the monarchical financial experiments of Martin Van Buren, with all their rich fruits of low prices and low wages, and to return to the good old republican usages adopted by Washington and the other patriots of the revolution, and continued and approved by all the Republican Presidents.

Resolved, That in a Republican Government the people are sovereign and have the right to decide all great political questions, and that to call in question the correctness of their decision, when so solemnly expressed at the polls, or to impugn the purity of their motives, is an insult to the intelligence and virtue of the people, and a virtual denial of the fundamental principles of Republics.

Resolved, That as Republicans, believing in the ability of the people to govern themselves, we acquiesce in the sentence of condemnation passed by the people at the late election of President, upon Mr. Van Buren, with his Sub-Treasury and standing army projects.

Resolved, That the active and untiring efforts of Mr. Van Buren's trained band of Federal officers, to defeat the will of the people at the late Presi-

dential election, has inscribed upon the list of President Harrison's Executive duties, in characters too legible to be misunderstood, the task of reform, particularly of those abuses which have recently brought the patronage of the Government into conflict with the elective franchise."

House bill for "An act to sell school section, in township fourteen north, of range eight east, of the 4th principal meridian," together with the objections of the Council of Revision, were considered.

On motion of Mr. Henderson,

The objections as follows, were read,

The Council of Revision have had under consideration an act entitled "An act to sell the school section in township 14 north, range 8 east, of the fourth principal meridian. and it appearing to a majority of the Council. that the said act is improper to become a law, the undersigned members of the Council return it to the House of Representatives, in which it originated, together with their objections thereto, which are as follows:"

"The act provides that the sixteenth section therein named, upon the petition of three-fourths of the qualified voters shall be sold, notwithstanding the number of inhabitants may be less than now required by law, and that a person therein named may purchase at valuation in forty or eighty acre lots, so much of the same as may include any part of his improvements."

The general law on this subject requires a petition of a like proportion of voters that the inhabitants shall amount to fifty at least. That the land shall be valued by the trustees of the township, and that no land shall be sold for less than the valuation; all which provisions except as to the number of inhabitants are adopted by this act.

As the land has been donated to the State for the use of the inhabitants of the township, as well for future as present inhabitants, no mode of disposal ought to be adopted, which would most probably do manifest injustice to those who may hereafter become interested.

The undersigned members of the Council have information, which they deem authentic, that there are very few inhabitants in the township, not amounting perhaps to more than a fourth part of the number required.

Under these circumstances, it appears difficult to presume that trustees therein can be found so divested of interest as to be qualified to make an impartial valuation.

PROTEST

The undersigned, members of the House of Representatives, hereby avail themselves of the privilege granted under the Constitution of entering their protest against the passage of a bill entitled "An act concerning the State Bank of Illinois, having for its object a repeal of the twenty-fifth section of the act creating said bank, and authorizing an indefinite suspension of specie payments by said bank, for the following amongst other reasons:

Because a suspension of specie payments on the part of the bank in which the State is a principal stockholder, is setting a vicious example, encouraging a want of fidelity on the part of the people in respect to their personal obligations.

Because such suspension is in violation of all good faith, opposed to good morals, pernicious in its example, at variance with all pecuniary obligation, and adverse to the prosperity of the people.

Because the plea of necessity urged for such suspension, is a perpetual plea brought forward on all occasions, to justify not only the political but the personal derelictions of men, while the necessity for such suspension has been created by the bank itself; the bank in truth being in a much worse condition now, than it was when the first suspension was authorized; and the undersigned believe, that this unfortunate state of things is rather increased than diminished, by authorizing bank suspensions.

Because the people, in the opinion of the undersigned, are opposed to any such legalizing of bank suspensions, and that their representatives when fresh from those whose will they profess to express, would not vote for any bill containing such obnoxious features as does the present bill.

Because bank suspensions depreciate the value of the circulating medium, and compel the people to pay indirectly a heavy tax, for the benefit of the stockholders, without any comparative advantage to themselves.

Because such suspension will greatly impair the credit of the State, the State being a principal stockholder in that institution, this suspension will give foundation to the belief, that the State does not intend, or desire to do justice to the creditors of the State.

Because the reason assigned for the suspension, viz: that the bank will aid the people, is fallacious, for if the bank intends to resume, it must continue to retrench its circulation, to be prepared for resumption; and if it continues to extend its circulation, the bills issued will depreciate proportionately, until the whole community will be borne down under a valueless paper circulation.

Because the bank does not create money; it merely loans its credit for money, and though it may add to the circulating medium, it does not add any value or wealth to the country.

Because the bill proposes to repeal the twenty-fifth section, which merely authorizes the bank to suspend specie payments for ten days only, which, when repealed, will leave the bank to suspend as often, and for as long a time as it pleases, and places the bank beyond the control of the Legislature.

Because the bill does not propose a repeal of the thirty-first section of the bank charter, which declares that no law shall ever be passed, restraining the bank in the collection of its debts.

WHEREAS, the House of Representatives has passed a law, restraining individuals in the collection of their debts, by compelling creditors to take property at two-thirds of its value, showing a willingness that the bank may collect its dues from the people at any sacrifice, while the people cannot collect in the same way from each other, nor from the bank; creating an odious and unjust distinction, in favor of a corporation, and against the people.

Mr. Hardin presented the following

PROTEST.

The genius and the policy of Republican institutions alike indicate the wisdom and the necessity of a frequent appeal to the people. It is thus, and thus only that the misconduct of their Representatives may be rebuked, and when the guards of our Constitution, and the sacred rights of minorities are trampled under foot, the time has arrived for the appeal and the decision.

The undersigned, members of the present General Assembly, have witnessed with regret and indignation, the passage of the law for the re-organization of the Judiciary. Their earnest and repeated efforts to defeat it have been unavailing, and already the din of the degrading contest for its offices and emoluments, sounds mournfully in the ear of patriotism.

To the majority of a Legislature whose idol is party supremacy, we have addressed our reasons in vain. Announced as a party measure for party purposes, it has been strengthened by the startling admission, and it only remains for us to present to the people and the country, the causes of our opposition, and our opinion of the results.

Our great objection to this bill is, that it is uncalled for by public opinion, or public convenience. The bill provides for the repeal of all the circuit courts, and for the election of five additional Supreme Judges, who, together with the present Supreme Judges, are required to hold circuit courts.

This is an entire change in our Judiciary system. By what necessity is it justified, or by what emergency is it required? Does it cause more courts to be held, or more causes to be decided? Will delays of justice be obviated, or justice brought nearer to any man's door? To all these questions, the answer must be, no. There are still but nine circuit judges.—They at least can perform no more duty by being Supreme Judges. They can travel no further, endure no more, sleep no less; for at best they are but men; and whoever for a moment examines, will see, that this bill, so far from aiding the speedy administration of justice, must, by imposing new and increased duties upon the judges presiding on the circuits, most materially delay and impede it.

Since the adoption of the circuit system in 1834, the need of additional circuits has been constantly increasing, and gradually supplied. Our population has doubled, our business has increased in a still greater proportion, and the creation of new circuits, so as to keep pace with this advance, has been demanded by the people, and performed by the Legislature.—There can be no doubt that a continuance in this course would have proved for the future, as it has done for the past, convenient, economical, and satisfactory.

But if this change has not been called for by public convenience, still less has it been demanded by public opinion. When the Legislature assembled in advance of the usual time, the public mind was turned with feverish anxiety to the condition of the State, and the course of its rulers; an increased debt; an empty treasury. Our internal improvement system a wretched skeleton, railroads half finished, or half decayed; iron without roads, and roads without iron; the canal so surrounded with difficulties that even its truest friends were almost found "to stop, too fearful, and too faint to go." Our scrip, issued on the faith of the State, spreading like leaves, every where, and like leaves almost valueless. These were some of the difficulties of our condition, and these it was supposed, required our utmost wisdom and patriotism. But while thus surrounded by clouds of misfortune, there was one part of the State administration against which there was no complaint, and in which almost alone, no change was required. Need we say this was our system of circuit courts, established after various trials, conforming itself to the condition and increase of our population, and approved by the experience of all the surrounding States. How strange, how unaccountable must it appear, that while all the rest of these great interests remaining unprotected, almost untouched, this system of circuit courts has been attacked and destroyed. Yet, if unjust and unwise as we believe it to be, public opinion, the great moving principle of free government, had indicated this change, we would have yielded obedience to its dictates, or at least bowed in submission to its authority. But this was not the case. In the canvass preceding the late election, excited and heated as it was, the subject was undiscussed, the change was not proposed, and even when it was known that there was a large majority of Van Buren men in either branch of the Legislature. Up to this moment, no petition, no complaint upon this subject has invited the attention of this body, or asked for its Legislation to destroy our Judiciary system.

Thus unasked, unrequired, the bill has been ushered into existence, not merely in advance, but in defiance of that public will for which its supporters always profess such profound respect.

Nor is the manner in which this bill has been sustained, less remarkable. It was preceded by the statement that the destruction of the existing system was to be followed by the creation of inferior tribunals, by which the public interests would be advanced. Their jurisdiction, their judges, their location, were left to the imaginations of those whose votes were necessary; and if visions of judicial dignity burst upon their excited fancy, and furnished powerful reasons in support of the bill they were called upon to pass, it might well be called a master stroke of policy, if not of morals, to suggest the idea. Nor were the spoils of victory to be disregarded.—Scattered in every county of the State, the new clerkships might tempt avarice, and excite ambition, or at least afford a safe, if not honorable retreat from the indignation of the people.

But, as if these reasons were still insufficient, the genius of its friends were called into brilliant exercise in rousing the spirit of party; and the dominant party were called to its support in the name of Democracy, as if the spirit of Democracy could animate a measure remarkable only for its supreme contempt for the popular will, or stern determination to usurp power. It was thus the Democracy were called on to rally to its support, and it was unblushingly avowed as its object, to obtain a Democratic majority in the Supreme Court, that they might decide questions of law according to the principles of Democracy, or in other words, according to the will of the party in power. It was by these and kindred means that the bare constitutional majority was obtained, and thus the independence of the Judiciary, the surest shield of public welfare and private right, has been brought to abject submission at the feet of Legislative authority.

We have not been neglectful of our duty in warning the majority of the dangers of these violations of the spirit of the Constitution. We have pointed to the care with which the Constitution has guarded the rights of the Judiciary. We have remonstrated against this evasive mode of removing Judges who are expressly required by the Constitution to be commissioned during good behaviour. We have asked that if criminal or incompetent, they should be removed by address or impeachment, the only modes known to the Constitution; and we have deprecated in earnest but respectful terms, an arbitrary exercise of power which may soon become the precedent for still more flagrant violations of right and justice. But we have striven in vain; the torrent of party prejudices has borne down our objections, and we can only hope that in the majesty of the popular will it may find a barrier sufficient to impede its course and stay its mischief.

We desire to say also that we consider this a fit occasion to express our conviction of the great injury this bill will cause to our character as a State. We have arrived at a critical period in our history; we seem to be surrounded by adverse circumstances well fitted to try our public faith and individual virtue. It would be the greatest, as we trust it may be the last evil we could endure, to lose our rank among States, and stand disgraced amid the fair sisters of our confederacy. But if, to the calamities to which we are already subject, and which direct painful attention to our course, is to be added a party Judiciary, made by one party, and for one party, and of one party, who that loves his country does not painfully perceive the deep but certain degradation which awaits us.

Nor do we think the influence of this bill less pernicious in its more immediate results; that there will be a lamentable want of confidence in our courts, we firmly believe; nor indeed can it be otherwise. Whoever may be selected as Judges under this bill must feel that they receive their offices from party domination, for party purposes, and the lofty independence so becoming to a judge cannot exist; the will of the party and the success of the party must be in their thoughts, and if it were possible to suppose it otherwise, how will they stand with the community? Will they not be subject to the galling but continual imputation, to the burden of a suspicion, justified, if not by their conduct, at least by their position; baneful and miserable must the tendencies of this measure be, since our courts, if not corrupt, must be suspected, and the streams of justice tinged, if not by the impurity of the fountain, by the jaundiced vision of the beholder.

There are some of the undersigned who witnessed in another State the fearful consequences of a similar interference with the courts by the Legislative authority. They saw there a contest thus produced which for bitterness and ferocity has seldom been equalled; they witnessed the whole framework of society shaken, justice denied, delayed, and brought into disrepute; crime stalking unrebuked and unpunished, and the best interests of a community shattered or crushed, and they cannot remain silent when an attempt is made which being intended for similar purposes, may produce similar results.

For the reasons thus presented, and for others no less apparent, the undersigned cannot assent to the passage of the bill, or permit it to become a law without this evidence of their disapproval; and they now protest against the passage of a bill for the re-organization of the Judiciary; because,

First. It violates the great principles of the government by subjecting the Judiciary to the Legislature;

Second. It is a fatal blow at the independence of the Judges, and the constitutional term of their office;

Third. It is a measure not asked for, or wished for by the people;

Fourth. It will greatly increase the expense of our courts, or else greatly diminish their utility;

Fifth. It will give our courts a political and partizan character, thereby impairing public confidence in their decisions;

Sixth. It will impair our standing in the opinion of other States, and the world;

Seventh. It is a party measure, for party purposes, from which no practical good to the people can possibly arise, but which may be the source of innumerable evils.

The undersigned are well aware that this protest will be altogether unavailing with the majority of this body. The blow has already fallen, and we are compelled to stand by the mournful spectators of the ruin it will cause. But we cannot do otherwise than point out the danger of this measure, its impolicy and its usurpation, in order, at least, that the despotism of a momentary majority may not become a precedent for succeeding enormities, or future crimes.

We have thus accomplished our only remaining duty on this painful subject, and we commit the final decision of this great question to the judgment and justice of the people. We have struggled ineffectually to guard

the principles of our government from unhallowed innovation, and we now submit this great question to our constituents, and the country. As Representatives, we can do no more; as citizens, we shall be found where we have ever been, contending for the supremacy of the Constitution.

Nor are we without our great consolation; there is a spirit in the people, sometimes slumbering, but never extinct, which, when thoroughly aroused by usurpation or tyranny, will overwhelm the usurper and his devices in an undistinguished ruin; nor can they long escape this generous indignation, who prostitute the power bestowed by the people to unworthy ends or selfish purposes. When that spirit shall kindle in its might, and rebuke the authors and abettors of this plan, we may rely upon this protest as a proof of our fidelity to the cause of the country, and a shield against the indignation of the people.

SPRINGFIELD, Feb. 27, 1841.

To the Honorable,

the Speaker of the House of Representatives:

SIR—I hereby resign my seat in the House of Representatives, as a Representative from the county of Hamilton.

Your ob't serv't.

M. CARPENTER.

Mr. Hardin offered the following protest, which was read, and ordered to be entered on the Journals, to wit:

PROTEST.

The undersigned feel it their imperious duty to enter their protest against the passage of "An act regulating the sale of property sold under execution."

We protest against said act,

1st. Because we believe it to be unjust and illegal; for as the law which existed at the time of making a contract, constitutes in view of both contracting parties an essential part of the contract; a total change of that law as in this case, violates the contract to the manifest prejudice of one of the parties. It is therefore a violation, in our opinion, at least of the spirit of that clause of the Constitution which declares that "no law shall be passed impairing the obligation of contracts."

2d. It gives the creditor, debtor, and officer, each the right of choosing a valuer, and thus places it in the power of the officer to favor either creditor or debtor at his election.

3d. It provides no way by which a creditor who does not bid two-thirds of the value of the property may continue to hold a lien on the property levied on.

4th. Under its provision, if a debtor owns a house and lot, or other piece of property which cannot be divided, worth five hundred dollars, and a creditor has a judgment against him for one hundred dollars, the creditor must pay out more money than his debt to have the property sold under his judgment.

5th. Because the law is in other respects imperfect, defective, and inconsistent with the other judgment and execution laws of this State.

6th. Because we believe such laws are rarely, if ever, beneficial to the debtor, whilst they are harrassing and vexatious to both creditor and debtor, when attempted to be carried into practice.

7th. All experience has proved such laws to be destructive of all confidence between men in business, requiring prompt compliance with contracts, and eminently hostile to the trade and commerce of a State.

8th. The crowd of business in many of the circuit courts of the State, has been, and still continues to be such as to make creditors wait from one to three years to get a judgment, and this delay, with the embarrassments

proposed to be thrown in the way of the collection of debts by this law, will in very many instances amount to a denial of justice.

9th. The losses and delays arising from the above recited causes in the collection of debts, will injure or destroy the credit of all our citizens who may have business, trade, or commercial dealings with other portions of our sister States, and we shall be under the mortifying necessity of seeing Illinois traders and merchants ranking lower in the scale of credit and confidence than others of our sister States, owing to this unwise, injudicious, and impolitic legislation.

10th. Because the character and credit of our State has been heretofore seriously impaired by improvident and extravagant legislation, and the passage of this "stay and stop law" will still further injure the character of the State, and stamp it as peculiarly cursed with a wild and reckless spirit of legislation.

11th. Because, although the passage of such a law may be desired by some few persons, yet we believe it to be wholly uncalled for, and unexpected by the great majority of the citizens of the State, who desire to see men stand by their contracts, and the laws enforced without fear, favor, or affection.
